INFECTION CONTROL

To avoid introducing and spreading infection, you are advised to wash your hands regularly.

We would appreciate if any friends or relatives who are suffering from colds, flu like illness, chicken-pox, vomiting, diarrhoea or any other infection did not visit while you are in hospital.

Alcohol Hand Gels have been provided for convenience. Please use on entering and leaving the ward.

Also please ensure your visitors do not sit or lie on your bed or other beds.

Footwear / slippers should be worn while walking in the ward area, however, please do not put footwear / slippers on the bed.

If you have daily visitors then clean pyjamas / nightdress, a clean skin flannel and towel brought in daily is a good way to reduce the risk of infection.

Patients should not visit other patients in the ward or any other part of the hospital. Inpatients are not permitted to visit the canteen or restaurant while in hospital.

Service Users and their relatives/visitors can ask staff if they have performed hand hygiene before attending to them and also request them to practice hand hygiene
