Maternity Patient Safety Statement

Feidhmeannacht na Seirbhíse Sláinte
Health Service Executive

This is a monthly report, specific to the hospital named below setting out a range of information on the safety of maternity services.

Hospital Name	Wexford General Hospital	Reporting Month	May 2017
Purpose & Context	This Statement is used to inform local hospital and hospital Group management in carrying out their role in safety and quality improvement. The objective in publishing the Statement each month is to provide public assurance that maternity services are delivered in an environment that promotes open disclosure. It is not intended that the monthly Statement be used as a comparator with other units or that statements would be aggregated at hospital Group or national level. It assists in an early warning mechanism for issues that require local action and/ or escalation. It forms part of the recommendations in the following reports: • HSE Midland Regional Hospital, Portlaoise Perinatal Deaths, Report to the Minister for Health from Dr. Tony Holohan, Chief Medical Officer, 24 February 2014; and • HIQA Report of the Investigation into the Safety, Quality and Standards of Services Provided by the HSE to patients in the Midland Regional Hospital, Portlaoise, 8 May 2015. It is important to note tertiary and referral maternity centres will care for a higher complexity of patients (mothers and babies), therefore clinical activity in these centres will be higher and therefore no comparisons should be drawn with units that do not look after complex cases.		

Headings	Ref	Information Areas	May 2017	
				Year to date
Hospital Activities	1	Total mothers delivered ≥ 500g (n)	145	715
	2	Multiple pregnancies (n)	2	12
	3	Total births ≥ 500g (n)	147	727
	4	Perinatal mortality rate – adjusted (per 1,000 total births)	1 (6.8 per 1,000)	5 (6.9 per 1,000)
