

Maternity Safety Statement

This is a monthly report, specific to the hospital named below setting out a range of information on the safety of maternity services.

Hospital Name	Regional Hospital Mullingar	Reporting Month	August 2025
Purpose & Context	- This Statement is used to inform local hospital and hospital Group management in carrying out their role in safety and quality improvement. The objective in publishing the Statement each month is to provide public assurance that maternity services are delivered in an environment that promotes open disclosure. - It is not intended that the monthly Statement be used as a comparator with other units or that statements would be aggregated at hospital Group or national level. It assists in an early warning mechanism for issues that require local action and/or escalation. - It is important to note tertiary and referral maternity centres will care for a higher complexity of patients (mothers and babies), therefore clinical activity in these centres will be higher and therefore no comparisons should be drawn with units that do not look after complex cases. - This Statement does not contain the entire suite of metrics used to measure safety in our maternity services.		

			August	2025
Hospital Activities	1	Total mothers delivered $\geq$ 400g or $\geq$ 23 weeks (n)	160	1142
	2	Multiple pregnancies (n)	6	18
	3	Total births $\geq$ 400g or $\geq$ 23 weeks (n)	166	1159
	4	Perinatal mortality rate – adjusted (per 1,000 total births)	12.0 per 1000	2.6 per 1000
	5	In utero transfer – admitted (n)	0	0
	6	In utero transfer – sent out (n)	3	23
Major Obstetric Events	7	Total combined rate (per 1,000 total mothers delivered) of major obstetric events for the following four obstetric metrics:	0.0 per 1000	0.0 per 1000
		• Eclampsia;	0	0
		• Uterine rupture;	0	0
		• Peripartum hysterectomy; and	0	0
		• Pulmonary embolism.		

			August	2025
Delivery Metrics	8	Rate of assisted vaginal delivery per total mothers delivered (%)	9.4%	9.9%
	9	Rate of nulliparas with assisted vaginal delivery (%)	18.8%	20.2%
