

Maternity Safety Statement

This is a monthly report, specific to the hospital named below setting out a range of information on the safety of maternity services.

Hospital Name	University Hospital Kerry	Reporting Month	June 2025
Purpose & Context	<ul style="list-style-type: none"> This Statement is used to inform local hospital and hospital Group management in carrying out their role in safety and quality improvement. The objective in publishing the Statement each month is to provide public assurance that maternity services are delivered in an environment that promotes open disclosure. It is not intended that the monthly Statement be used as a comparator with other units or that statements would be aggregated at hospital Group or national level. It assists in an early warning mechanism for issues that require local action and/or escalation. It is important to note tertiary and referral maternity centres will care for a higher complexity of patients (mothers and babies), therefore clinical activity in these centres will be higher and therefore no comparisons should be drawn with units that do not look after complex cases. This Statement does not contain the entire suite of metrics used to measure safety in our maternity services. 		

			June	Year to date
Hospital Activities	1	Total mothers delivered $\geq 400\text{g}$ or ≥ 23 weeks (n)	76	468
	2	Multiple pregnancies (n)	1	5
	3	Total births $\geq 400\text{g}$ or ≥ 23 weeks (n)	77	473
	4	Perinatal mortality rate – adjusted (per 1,000 total births)	0	0
	5	In utero transfer – admitted (n)	1	1
	6	In utero transfer – sent out (n)	4	12
