

## Easter art with Edel

**Name:**

**Date:**

### New Directions: Personal Expression and Creativity

1. Firstly, we will start by folding a corner of the page into a triangle
2. Then we will fold the remaining part of the page upwards. Using the folded line as a guide we will use our scissors to cut off the end of the page
3. You should now have a square like so in the picture
4. Now we will begin by folding the page in quarters
5. After folding the page in half, we will be lift the edges of the page on one side and push them in underneath
6. Next, we will then fold the edges again in half

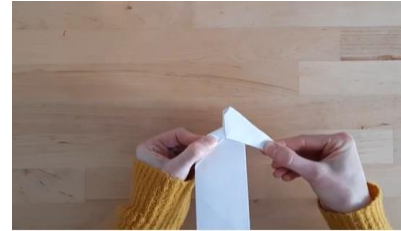

7. Fold the edges into the centre and flatten down

8. To create the ears, pull the top edges of the paper and then pull them upwards

9. Lastly using our marker create the eyes but drawing a small circle

Well done you have created your easter bunny.

Why not add some colour and show us your pictures on the Reconnect Facebook page
