

CAMHS Operational Guideline (3rd Edition) – Local Implementation Plan

This MS Word template should be used by teams to document proposed actions to support implementation of the 3rd Edition of the COG.

It should be reviewed regularly to ensure progress is monitored, and any issues which significantly impact implementation should be escalated through local governance structures.

National Document Title: CAMHS Operational Guideline 3rd Edition (2025)

Expected date of full implementation: __/__/__

CAMHS Team & Implementation Lead / Role:

IMPLEMENTATION ACTION	Implementation barriers / enablers	List of tasks to implement the action	Lead responsibility for delivery of the action	Expected completion date	Expected outcomes

Describe the structure and governance of your implementation team.

[An implementation team/contact must be in place and be available to communicate, disseminate and provide guidance, education materials and support to local implementation teams]

Education / training required to implement the National document:

Example: National memo's/circulars, Resources on websites, HSeLanD training modules, patient and service user information leaflets, training linked to CPD, e-learning, podcasts, study days, research, checklists, audit tools, seminars, conference, patient pathways, toolkits, algorithms, teaching aids, presentations.
