

Protect your skin from UV

Ultraviolet (UV) radiation from the sun and sunbeds damage your skin and can cause:

Sunburn

Age spots,
pigmentation,
freckles

Increased
risk of skin
cancer

Leathery
skin

Wrinkles and
other signs
of premature
ageing

Before you go outdoors, check the UV index at [met.ie/uv-index](https://www.met.ie/uv-index). If it is 3 or above follow the SunSmart 5 S's. Especially between the hours of 11am and 3pm, from April to September in Ireland.

Slip on
clothing

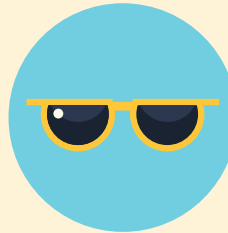

Slap on
a hat

Slop on
sunscreen

Seek
shade

Slide on
sunglasses

Be SunSmart
