

Update of NCIS Chart to version 2024-12

NCIS Chart will be updated to version 2024-12 on June 11th, 2025. Two new features that users might like to note are outlined below. Version 2024-12 is already available in the NCIS Training environment to provide the opportunity to “Use & Learn” the changes.

Conference Scheduling – New Action Button

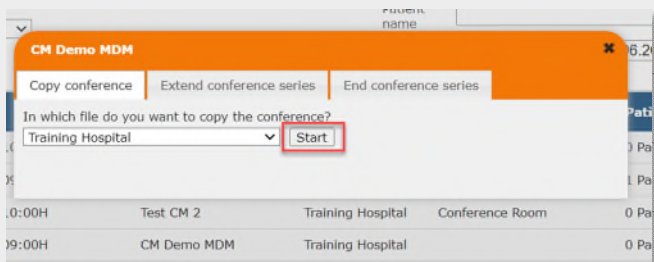

COPY, EXTEND OR END CONFERENCE SERIES

There is a new action button in the conference module. This allows case manager/administrator users to copy, extend or end a conference series. To access click the action button beside the conference.

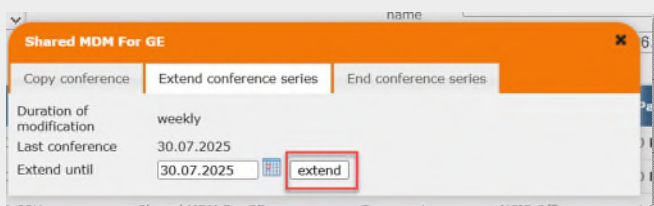

Copy a conference

Click the start button and it will bring you to a copied conference setup page and edit as appropriate.

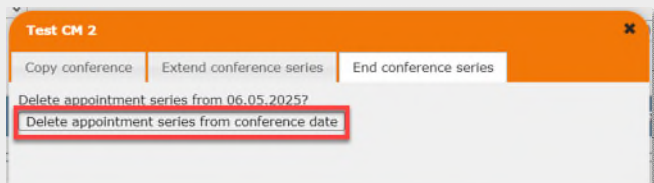

Extend Conference Series

Change the date to the date you want to extend the series to and click on extend.

End conference series

Click on delete appointment series from conference date. NOTE: You cannot delete the appointment series if there are any patients in the conference series. You will need to move them first.

For more information, please refer to the NCIS Guide Creating a Conference Appointment Schedule

Bed Planner Report – New Content

There has been a change to the content of the Bed Planner Report (available to case manager and administrator users).

- Filter for date range
- Filter for Place of Delivery (of Therapy Plan)
- Changes to column headers

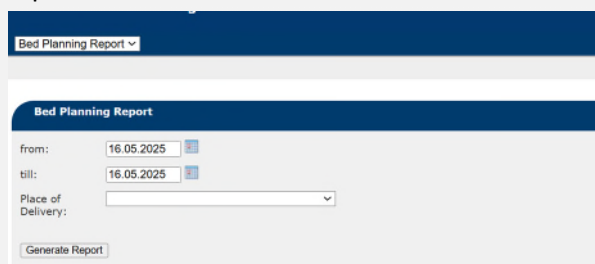

Open the Statistics Menu

Select Bed Planning Report

Filter for date range and location and click “Generate Report”

A PDF will provide a list for each day within the date range with the following column headers:

- Patient name
- Local patient ID
- Date of Birth
- Necessity of the bed (from Therapy Plan)
- Bed designation
- Bed from
- Bed to
- Time required
- Unit (Place of Delivery)
- Cost Centre (Consultant)
- Room no
