

National Breast Cancer GP Referral Guideline

Disclaimer

'This guideline ("the Guideline") was developed by a multidisciplinary Guideline Development Group ("the Group") and is based upon the best clinical evidence available together with the clinical expertise of the Group members. The Guideline supersedes all previous HSE/NCCP breast cancer GP referral guidelines. The National Cancer Control Programme (NCCP) is part of the Health Service Executive (HSE) and any reference in this disclaimer to the NCCP is intended to include the HSE. Please note, the Guideline is for guidance purposes only. The appropriate application and correct use of the Guideline is the responsibility of each health professional, as an autonomous practitioner, at all times. Each health professional should exercise his or her clinical judgement in deciding when and how to make a referral to a Symptomatic Breast Disease Clinic. In the event of any uncertainty as to the application and/or use of the Guideline or whether a referral should be made to a Symptomatic Breast Disease Clinic it is the responsibility of each health professional to seek further clarity from the appropriate clinician or specialist. The NCCP accepts no liability nor shall it be liable, whether arising directly or indirectly, to the user or any other third party for any claims, loss or damage resulting from any use of the Guideline.'

Introduction

The National Breast Cancer GP Referral Guideline has been developed to provide a clear pathway for women with suspected breast cancer to access the National Symptomatic Breast Disease Clinics. These guidelines are based on the best available evidence integrated with clinical expertise and patient values.

How to Refer

Patients with suspected breast cancer should be referred electronically to one of the Symptomatic Breast Disease Clinics. Electronic referrals are sent via Healthlink (www.Healthlink.ie) or by using any of the following Irish College of General Practitioner (ICGP) accredited software systems:

- Complete GP
- Helix Practice Manager
- HealthOne
- Socrates
