1	KPI Title	HWB29- No. of initial tobacco sales to minors test purchase inspections carried out
1a	KPI Short Title	Tobacco test purchase inspections
2	KPI Description	Test purchases of cigarettes with volunteer minors are carried out in retail premises to assess compliance with tobacco control legislation. A minor is a person who has not attained the age of 18 years. They are volunteers who have freely offered to take part in the activity. A test purchase involves a supervised volunteer minor attempting to purchase tobacco from a retail outlet. Retail outlets are premises from where tobacco products are sold. The Public Health (Tobacco) Acts state that it shall be an offence for a person to sell a tobacco product by retail, or supply a tobacco product, to, or invite an offer to purchase a tobacco product by, a person who has not attained the age of 18 years.
3	KPI Rationale	It is an offence for retailers to sell tobacco products to persons under 18. The HSE Environmental Health Service enforces this provision of the Public Health (Tobacco) Acts 2002 – 2012. This metric reports on the activity associated with this provision.
3a	Indicator Classification	Access & Integration
4	National Target	2019 NSP Target: 384. This is a cumulative calculation
4a	Target	2019 Full Year Target 384
4b	Volume Metrics	
5	KPI Calculation	It is a count of the number of establishments where a test purchase inspection has been carried out.
6	Data Source	Environmental Health Information System (EHIS) The data is complete for all areas of the country. The only issue is ensuring that all relevant data for the quarter is entered in the EHIS by the 12th of the month following the end of the quarter which is monitored by local and regional management.

1	KPI Title	HWB31- No. of official food control planned and planned surveillance inspections of food businesses
1a	KPI Short Title	Inspections of food businesses
2	KPI Description	Food business establishments are routinely inspected to assess compliance with official food control requirements. A planned inspection will focus on each aspect of the four elements of a food safety management system (structural and operational prerequisites, HACCP (Hazard Analysis and Critical Control Point) and management procedures) and relevant food law (other than general food hygiene) applicable to the food business . A planned surveillance inspection will focus on one aspect of the four elements of a food safety management system (structural and operational prerequisites, HACCP (Hazard Analysis and Critical Control Point) and management procedures) and relevant food law (other than general food hygiene) applicable to the food business. An inspection is the systematic examination of the activities and operations to assess the level of compliance with applicable food legislation. The operation is assessed for compliance against the requirements Regulation (EC) No 852/2004 on the hygiene of foodstuffs and if applicable Regulation (EC) No 853/2004 laying down specific hygiene rules for food of animal origin and/or any other applicable food legislation as per Schedule 1 of the HSE FSAI Service Contract. A wide range of food businesses are subject to inspection including importers/exporters, manufacturers, packers, transporters, wholesalers/distributors, retailers and those in the service sector including public houses, restaurants, hospitals.
3	KPI Rationale	The FSAI HSE Service Contract requires the inspection of food business establishments. NSP access indicator of performance.
3a	Indicator Classification	Access

1	KPI Title	HWB81- No. of mystery shopper inspections carried out under the Public Health (Sunbeds) Act, 2014
1a	KPI Short Title	Sunbed mystery shopper inspections
2	KPI Description	Mystery shopper inspections are carried out to assess marketing compliance of sunbed establishments. A mystery shopper inspection is conducted to test the compliance of a sunbed business with other parts of the legislation that may not be verified satisfactorily during a physical inspection. Establishments includes any business where one or more than one sunbed is made available for use or a business which sells or hires sunbeds or advertises or promotes the use, sale or hire of sunbeds; e.g beauty salon, hairdressers, barbers, hotel, leisure centre, gym, stand alone dedicated sunbed salon, etc. Mystery shopper inspection includes, for example test phone calls to a sunbed business to query special offers or a physical visit to a sunbed business by an adult (a person who has attained an age of 18 years) to 'purchase' a sunbed session. The legislation applicable is the Public Health (Sunbeds) Act 2014 and all Regulations.
3	KPI Rationale	Certain promotions and marketing practices are not permissible under the Public Health (Sunbeds) Act 2014. NSP action under Corporate Goal 2.

Primary Care Reimbursement Service (PCRS) Medical Cards

1	KPI Title	PCRS1 - Medical Cards - Number of persons covered by medical cards as at 31st December
1a	KPI Short Title	N/A
2	KPI Description	This is a count of the number of people with eligibility for a Medical Card at the end of the reporting month. Medical Cards allow people to access family doctor or GP services, community health services, dental services, hospital care and a range of other benefits free of charge. Eligibility is determined based on a financial assessment of means. To qualify, weekly income must be below a certain limit for a particular family size. Cash income, savings, investments and property (except the family home) are taken into account while allowances are made for reasonable expenses in relation to rent / mortgage, childcare and travel to work expenses. Applicants whose weekly incomes are derived solely from Department of Social Protection or HSE allowances / payments, which are in excess of the Financial Guidelines, are eligible for a Medical Card. Those exempt from the means test include children in receipt of Domiciliary Care Allowance, children in foster care, children under 18 diagnosed with cancer, those with EU entitlement, people affected by the drug Thalidomide and women who have had a symphysiotomy. It is also possible to get a medical card if the costs of meeting ones medical needs cause undue financial hardship.
3	KPI Rationale	This metric allows us monitor the number of people with Medical Card eligibility for family doctor, community health services, dental services, hospital care and a range of other benefits.
3a	Indicator Classification	Access and Integration

Primary Care Reimbursement Service (PCRS) GP Visit Cards

1	KPI Title	PCRS2 - GP Visit Cards - Number of persons covered by GP visit cards as at 31st December
1a	KPI Short Title	N/A
2	KPI Description	This is a count of the number of people with eligibility for a GP Visit Card (GPVC) at the end of the reporting month. Most people who get a GPVC do so because their income is below a certain level or where the costs of meeting their medical needs cause undue financial hardship. GPVCs allow individuals and families to visit their family doctor free of charge. Costs of prescribed drugs, medicines and other health services are not covered. Everyone aged 70 years or over, ordinarily resident in Ireland is eligible for free GP care regardless of income. All children who have not reached their sixth birthday, ordinarily resident in Ireland, are eligible for services under the GPVC for Children Under 6 Scheme. All persons in receipt of Carer's Allowance or Carer's Benefit also have GPVC eligibility
3	KPI Rationale	This metric allows us to capture the number of people with eligibility for a GPVC at the end of the reporting period.

Primary Care Reimbursement Service (PCRS) Medical Card / GP Visit Card - 15 day turnaround

1	KPI Title	PCRS3 - Percentage of completed Medical / GP Visit Card (GPVC) applications processed within the 15 day turnaround
1a	KPI Short Title	N/A
2	KPI Description	This is a calculation of the percentage of the overall Medical Card / GPVC applications received by the HSE where Medical Card / GPVC applications are processed within 15 working days of receipt of application. Completed applications refer to those applications where there is sufficient information provided to allow the application to be processed and where there is no need to write to the client for additional information.
3	KPI Rationale	This metric allows us to capture the percentage of Medical Cards / GPVCs issued within 15 working days of receipt of a complete application by the HSE in order to ascertain the efficiency of the processing system.
3a	Indicator Classification	Quality and Safety
4	National Target	NSP 2019 Target - 99% - Target PIT

Primary Care Reimbursement Service (PCRS) Drug Payment Scheme (DPS) Claims

1	KPI Title	PCRS9 - No. of Drug Payment Schemes claims
1a	KPI Short Title	N/A
2	KPI Description	This is a count of the number of DPS claims (prescriptions) recorded on the DPS database of paid claims for the reporting month. As of the 1st April, 2019, under the DPS an individual or family in Ireland has to pay a maximum of €124 each month for approved prescribed drugs, medicines and certain appliances for use by that person or his or her family in that month. The amount is determined from time to time by the Minister for Health. Anyone ordinarily resident in Ireland can apply to join the scheme, regardless of family, financial circumstances or nationality. The scheme is aimed at those who do not have a medical card and normally have to pay the full cost of their medication. It also applies to those who have a GP Visit Card.
3	KPI Rationale	This metric allows monitoring of the number of claims made under the DPS in excess of €124 each month. All DPS claims are processed by and paid for by the PCRS.
