Hon	ne Support	
1	KPI Title	OP54 - No. of people in receipt of Home Support (excluding provision from Intensive Home Care Packages) - each person counted once only
1a	KPI Short Title	No. in receipt of Home Support (excluding IHCPs)
2	KPI Description	The number of people in receipt of a Home Support service on the last day of the month, categorised by care group (Older People, Disabilities, and Others (to include Mental Health and Children and Families Services) whose hours are funded from the Services for Older People Home Support Budget (Single Funding) This includes clients where the service is provided directly by HSE staff or indirectly by external (not for profit/for profit) providers and excludes clients who are only in receipt of Intensive Home Support Packages. Each client is to be counted in one care group only (where the majority of service is delivered). Home Support services provide personal and/or essential domestic care to dependent people to support them to live at home. It should support and complement the informal care already being provided.
3	KPI Rationale	This metric provides information on the usage of home support hours and the number of people supported by the HSE to remain at home.
За	Indicator Classification	National Scorecard Quadrant - Access
4	National Target	2021 National Service Plan Point in Time year end expected activity - 55,675.
		CHO 1: 4,310; CHO 2: 6,420; CHO 3: 4,605; CHO 4: 9,280; CHO 5: 6,280; CHO 6: 4,435; CHO 7: 7,120; CHO 8: 5,935; CHO 9: 7,290. This metric is point in time only and cannot be aggregated.

	<b>Assistant National Director</b>	Sandra Tuohy, A.N.D Head of Operations & Service Improvement Services for Older People

Hon	Home Support Pilot		
1	KPI Title	OP58 - Number of home support hours provided for testing of Statutory Home Support Scheme.	
1a	KPI Short Title	Home Support Pilot Hours	
2	KPI Description	The Home Support Service for Older People provides personal and/or essential domestic care to dependent people to support them to live at home. A programme of work to reform home support is underway and included in NSP 2021. As par of the reform of home support a Home Support Pilot Project will commence in 2021. The interRAI assessment tool will be used for all assessments for home support as part of the pilot. This will inform the development of a Statutory Scheme for Home Support. 230,000 hours has been allocated to the Pilot Project acoss CHOs 2,4,7 and 8, The pilot is once off in nature and will include an evaluation component. Home support hours allocated throught the pilot will be reported on separately as part of the pilot.	
3	KPI Rationale	Provide information on the home support hours usage as part of the pilot to enable evaluation of the resource allocation and inform the development of the staturtory home support scheme	
3a	Indicator Classification	National Scorecard Quadrant - Access	
4	National Target	2021 National Service Plan National Cumulative target : 230,000 hours	
4a	Target	Target is applied at national level only and is profiled across 12-months of 2021 on a calender month basis - Jan 0, Feb 2,300, March 5,750, April 10,750, May 18,750, June 27,450, July 27,500, August 27,500, Sept 27,500, Oct 27,500, Nov 27,500, Dec 27,500.	
4b	Volume Metrics		
5	KPI Calculation	The number of home support hours delivered to clients in a calendar month from the Home Support Pilot hours allocation including any paid hours for annual, sick or other leave funded from the allocated budget for the HS Pilot	
6	Data Source	Home Support records held at LHO level. Populated Operational Tracker for Home Support Pilot Project	
6a	Data Sign Off	Head of Older Persons	
6b	Data Quality Issues	Data quality issues are addressed as they arise	
7	Data Collection Frequency	Monthly	
8	Tracer Conditions	Any person may apply on the appropriate form to be considered for a Home Support service. Where an applicant cannot complete the form him/herself an application/referral may be made on behalf of an applicant by a family member, friend, carer or healthcare worker. Current legislation in relation to the Home Support service does not distinguish between people with limited and people with full eligibility. Therefore, in the context of current legislation the Department of Health has confirmed that access to Home Support services should be based on assessed care needs. The vast majority of beneficiaries of the Home Support service will be older people i.e. aged 65yrs or over. However, there will be flexibility in relation to applications from people aged less than 65yrs whose assessed needs are best met by Services for Older People. For the purposes of the pilot all new applicants within the CHN pilot site will be requested to participate in the pilot as well as 10% of reviews of existing home support recipents.	
9	Minimum Data Set MDS	Application Form followed by Care Needs assessment through InterRAI and a Home Support plan with a schedule of services. Operational Tracker for Pilot.

IHCI	P	
1	KPI Title	OP4 - Total number of persons in receipt of an Intensive Home Care Package (IHCP)
1a	KPI Short Title	No of IHCPs in place
2	KPI Description	Number of named person in receipt of an Intensive Home Care Package (IHCP) at a point in time (on the last day of the reporting period). An Intensive Home Care Package consists of community services and supports which may be provided to clients with higher levels of assessed care needs or complexity, in receipt of a high value of supports in the community to: a) return home from hospital or residential care or b) prevent attendance/admission to A&E/Acute Hospital or c) prevent or delay admission to long term residential care. Intensive HCPs (IHCPs) relates to those Home Support clients with levels of service, over and above normal levels available from Home Care services, which is provided to support the assessed needs of the applicant and would usually involve Home Support services valued in excess of €800 per week to be classed as an IHCP. IHCPs do not replace existing services. A significant proportion of Intensive home care packages are delivered to support persons with dementia. There is no requirement that an applicant should have a medical card in order to apply to be considered for an Intensive Home Care Package. An IHCP is allocated based on assessed care need within the limit of the resources available for the Service. To comply with the policy objectives of the scheme, the vast majority of beneficiaries of the Scheme will be older people i.e. aged 65 or over. However, there will be flexibility in relation to applications from people approaching 65 years. In addition some people aged less than 65 years, for example a person who has developed early onset dementia (and where their assessed needs can be best met by Services for Older People), may also be considered as exceptional cases for the IHC Service. Applications from people aged under 65 years will need to be approved by the General Manager. Enhanced level of community services is any additional level of services, over and above mainstream Home Support services which is provided to support the assessed needs of the applicant (National Guidelines
3	KPI Rationale	Monitor and Measure provision of service and report on activity against NSP. A separate funding stream has been provided for Intensive Home Care Package Service (from the NHSS sub-head). Therefore, there is a requirement to monitor provision of service and report on activity; provide analysis of provision of enhanced public community services.
3a	Indicator Classification	National Scorecard Quadrant - Access
4	National Target	2021 National Service Plan National Point in Time target: 235.
4a	Target	Target of 235 applied each month of 2021 at a national level
4b	Volume Metrics	
5	KPI Calculation	Total number of people in receipt of an Intensive Home Care Package on the last day of the month. = No. at start of month + no. of new clients – no. ceased during the month
6	Data Source	Intensive Home Care Package records held at LHO level. Populated CIF template is submitted by LHO to the NBIU.
6a	Data Sign Off	Head of Older Persons
6b 7	Data Quality Issues Data Collection Frequency	Data quality issues are addressed as they arise.  Monthly
8	Tracer Conditions	Any person may apply on the appropriate form to be considered for an Intensive Home Care Package. Where an applicant cannot complete the form him/herself an application/referral may be made on behalf of an applicant by a family member, friend, carer or healthcare worker. Intensive Home Care Packages will be allocated and approved based on assessed care need within the limit of the resources available for the Service.
9	Minimum Data Set MDS	Completed application form followed by a Care Needs Assessment. The assessment, by HSE health professionals will recommend what services/supports, if any, are required over and above what is available from mainstream community services or available from standard Home Care Services. In order to allocate an Intensive Home Care service the care needs assessment must confirm that enhanced levels of service/support are recommended. If the care needs assessment indicates that additional services/supports through the Intensive Home Care service are not appropriate or required the application for an Intensive Home Care Package will be refused.

NHS	HSS CONTRACTOR OF THE CONTRACT		
1	KPI Title	OP15 - % of population over 65 years in NHSS funded beds (based on 2016 Census figures)	
1a	KPI Short Title	% of population over 65 years in NHSS funded beds	
2	KPI Description	This metric shows the percentage of the population aged 65 and over that is availing of the Nursing Homes Support Scheme and includes Savers and Contract Bed clients. This metric also includes an estimate based on clients aged 65 and over who are supported under the long term residential care subhead in respect of (a) subvented patients and (b) savers - Section 39 voluntary organisations. It does not include patients admitted privately to approved nursing homes or patients residing in private nursing homes that are not approved for the purposes of NHSS.	
3	KPI Rationale	With an increasing ageing population it is necessary to monitor the age profile of clients availing of support under the NHSS to ensure the best management of the service and use of resources.	
3a	Indicator Classification	National Scorecard Quadrant Access	
4	National Target	2021 National Service Plan point in time National Target - ≤3.5%.	
4a	Target	National Target of ≤3.5% applied each month	
4b	Volume Metrics		
5	KPI Calculation	Number of clients over 65 /2016 census figures x 100	
6	Data Source	NHSS database to NBIU via Analyst	
6a	Data Sign Off	Ultan Hynes, Head of Service, NHSS

NHS	SS	
4	VDI T'U	ODD. Namely as for any sea for deal and a NUIOO is been been as idential associated by a sea discount.
1	KPI Title KPI Short Title	OP8 - Number of persons funded under NHSS in long term residential care during the reporting month  Number of persons funded under NHSS
1a 2	KPI Description	This metric measures the total number of people both public and private who are in receipt of long term residential care services and who are supported under the Nursing Homes Support Scheme during the reported month. This includes State Support only, State Support and Nursing Home Loan, Nursing Home Loan only. It also includes 'Savers' i.e. people in public long term care at the comencement of the scheme who did not opt for the NHSS along with people on subvention and in older persons contract beds who did not opt for the scheme.
3	KPI Rationale	The rationale is to establish the number of people in long-term residential care who are receiving financial support from the State. In the transition years of the scheme, there may be some individuals receiving support via the subvention scheme or contract beds. However, ultimately the Nursing Homes Support Scheme will be the only State funded means of accessing long-term residential care.

Pub	lic Beds	
1	KPI Title	OP13 - No. of short stay beds in public units
1a	KPI Short Title	
2	KPI Description	Total number of short stay beds in public residential centres for older people. Short stay beds include Respite. Assessment Rehabilitation Beds etc.
3	KPI Rationale	This metric enables the monitoring and supply of short stay beds in the Public System.
3a	Indicator Classification	National Scorecard Quadrant Access
4	National Target	2021 National Service Plan Point in Time year end target - 2,209 CHO1: 257, CHO2: 256, CHO3: 206, CHO4: 428, CHO5: 290, CHO6: 150, CHO7: 254, CHO8: 101, CHO9: 267.
4a	Target	January 1,377, February 1,453, March 1,529, April 1,605, May 1,678, June 1,755, July 1,825, August 1,910, September 1,984, October 2,059, November 2,134, December 2,209
4b	Volume Metrics	
5	KPI Calculation	Beds counted on the last day of every month and temporary closures are included within the overall figure.
6	Data Source	National Central Bed Register. Corporate Information Facility (CIF) template completed with regional data by National Office SFOP and returned to CHC NBIU for upload to CIF.
6a	Data Sign Off	Head of Operations & Service Improvement Services for Older People
6b	Data Quality Issues	No
7	Data Collection Frequency	Monthly
8	Tracer Conditions	Persons over 65 years - (in some cases persons under 65 years if exceptional circumstances)
9	Minimum Data Set MDS	Short Stay Beds managed by local LHO Area. Referrals taken from HSE Community Services, GPs and Acute Hospitals
10	International Comparison	No No
11	KPI Monitoring	Monthly
12	KPI Reporting Frequency	Monthly
13	KPI Report Period	Current (e.g. daily data reported on the same day of activity, monthly data reported within the same month of activity)
14	KPI Reporting Aggregation	National/CHO/ LHO Area

Pub	Public Beds				
1	KPI Title	OP57 - % Occupancy of short stay beds			
1a	KPI Short Title				
2	KPI Description	.Collection of occupancy figures on short stay bed occupancy in public residential units for older people. This includes bo long stay units and short stay units. Short Stay Beds include Respite. Assessment, Rehabilitation Beds etc.			
3	KPI Rationale	Performance measurement of short stay bed utilisation in public residential units for older people			
Ba	Indicator Classification	National Scorecard Quadrant - Access			
	National Target	2021 National Service Plan Point in Time Target - 90%			
a	Target	Point in Time Target - Target of 90% applies each month			
lb	Volume Metrics				
5	KPI Calculation	The no. of short stay beds occupied in each unit will be collated on the 15th of the month and the last day of the month. These two figures will then be averaged for the no. of occupied short stay beds. The % calculation will be completed as follows:-  Numerator – No. of occupied short stay beds in public long stay units / Denominator – No of short stay beds in public long stay units x 100			
5	Data Source	National Central Bed Register. Corporate Information Facility (CIF) template completed with regional data by National Office SFOP and returned to CHC NBIU for upload to CIF.

Qua	lity	
1	KPI Title	OP47 - % of compliance with Regulations following HIQA Inspection of HSE direct-provided Older Persons Residential Services
1a	KPI Short Title	HIQA Regulation Compliance in Older Persons HSE Residential
2	KPI Description	The Health Information and Quality Authority (HIQA) is legally responsible for the monitoring, inspection and registration of designated nursing homes for Older People in Ireland. HIQA uses the Regulations and National Standards to monitor and inspect nursing homes. Inspections ensure that services meet the requirements set out by the Health Act 2007, Regulations and National Standards in order to be registered to operate. This KPI measures the level of national compliance achieved during HIQA Inspections in HSE direct-provided Older Persons Residential Services
3	KPI Rationale	To measure and monitor national compliance in HSE Older Persons Services, and identify areas of concern and under- performance in the quality and safety of the care and support being provided. This information can then inform the development of targeted Service Improvements in order to improve the outcomes for the Residents.
3a	Indicator Classification	National Scorecard Quadrant Quality and Safety
4	National Target	2021 National Service Plan Cumulative Target: 80% National Compliance.
4a	Target	80% target applies each reporting quarter at a national level
4b	Volume Metrics	N/A
5	KPI Calculation	Nationally: Count the total number of outcomes inspected in each inspection (denominator/ the target population). Count the total number of outcomes inspected by HIQA that were deemed compliant. (subset or the numerator)Report the number of outcomes inspected by HIQA that were compliant as a % of the total number of outcomes inspected in each inspection.
6	Data Source	Published HIQA inspection reports.;Quality and Patient Safety
6a	Data Sign Off	Assiatntant National Director, Quality and Patient Safety, Community Operations
6b	Data Quality Issues	100% data completeness required.
7	Data Collection Frequency	Quarterly
8	Tracer Conditions	Outcomes that were found to be compliant in HIQA Inspection.
9	Minimum Data Set MDS	HIQA Inspection data received from HIQA as a direct transfer
10	International Comparison	N/A
11	KPI Monitoring	Quarterly
12	KPI Reporting Frequency	Quarterly
13	KPI Report Period	Quarterly Two Quarters In Arrears Q-2Q
14	KPI Reporting Aggregation	National
15	KPI is reported in which reports?	Annual Report/ NSP/ MDR/Performance Profile
16	Web link to data	http://www.hse.ie/eng/services/publications/performancereports/
17	Additional Information	Is the data for this KPI available through Corporate Information Facility (CIF)?  Yes
	KPI owner/lead for implementation	General Manager, Quality and Patient Safety, Community Operations
	NBIU data support	Niamh Doyle, Lead Data Analyst, Older Persons Services and Safeguarding niamhm.doyle@hse.ie
	Assistant National Director	JP Nolan, Assistant National Director, Quality and Patient Safety, Community Operations

1	KPI Title	OP44 No. of persons in receipt of payment for transitional care in alternative care settings
-		of 44 No. of persons in recorpt of payment for transitional care in alternative date settings
1a 2	KPI Short Title KPI Description	The number of persons discharged from Acute Hospitals and supported in a Transitional Care Bed under Delayed Transfe of Care Funding at a point in time .Transitional Care Bed - A bed provided in a private nursing home under the agreed NTPF rate for patients categorised as a Delayed Transfer of Care patient in an Acute Hospital who requires long stay care and is waiting for NHSS application to be finalised or patient requiring a period of convalesence in private nursing home before returning home up to a period of maximum 4 weeks. Clients in Payment at point in time .
3	KPI Rationale	TCB's facilitate the discharge of Delayed Tansfers of Care patients to private nursing homes for patients waiting for NHSS care or who require a period of convalescence and return home.
3a	Indicator Classification	National Scorecard Quadrant - Access
4	National Target	2021 National Service Plan Point in Time National Target - 831
4a	Target	Point in Time KPI - 831 target applied each month
4b	Volume Metrics	
5	KPI Calculation	A count of the number of persons at a point in time on the last working day of the month in receipt of payment of transitional care funding in an alternative care settings.
6	Data Source	National Transitional Care Office to NBIU
6a	Data Sign Off	Samantha Rayner, General Manager, Services for Older People, Community Operations.
6b	Data Quality Issues	Data quality issues are addressed as they arise.
7	Data Collection Frequency	Monthly
8	Tracer Conditions	
9	Minimum Data Set MDS	No. of approved applications that meet criteria for scheme.
10	International Comparison	Not applicable
11	KPI Monitoring	Daily
12	KPI Reporting Frequency	Monthly
13	KPI Report Period	Monthly in arrears (June data reported in July)

mic	rRAI Ireland Assessment	
1	KPI Title	OP56 - No. of People seeking service who have been assessed using the InterRAI Ireland Assessment System.
1a	KPI Short Title	Number of linterRAI Assessments completed
2	KPI Description	The interRAI Ireland Assessment is a comprehensive IT based standardised assessment used to assess the health and social care needs of people (primarily those over the age of 65 years) who may be looking for home care or long term care support. This will ensure that every person being assessed for support services, either for home care or long term care, has access to a standard and thorough assessment, regardless of where they live or who is doing the assessment. The interRAI Ireland assessment is replacing the current Common Summary Assessment Report (CSAR) paper based assessment and is being rolled out across community and acute hospital settings nationally in 2021
3	KPI Rationale	Comprehensive information from interRAI assessments is recorded electronically and is securely stored which allows ease of access to information and reduces duplication of assessment. The information generated by the comprehensive interRAI assessment highlights opportunities for improvement for the person and potential areas of decline. It facilitates the creation of individualised care plans which can lead to improved health outcomes for clients. This KPI was introduced to track the implementation of the interRAI Ireland Assessment Tool.
3a	Indicator Classification	National Scorecard Quadrant a) Quality and Safety; b) Access;
4	National Target	2021 National Service Plan Cumulative National Target of 6,000
4a	Target	Profile - January 300, Februrary 300, March 300, April 350, May 450, June 500, July 500, August 550, September 600, October 700, November 750, December 700,
4b	Volume Metrics	
5	KPI Calculation	This KPI will be calculated based on a count of the number of interRAI assessments completed / signed off in a calendar month on interRAI Ireland Assessment Information System
6	Data Source	The interRAI Ireland Assessment Information System will be used as the source of this data
6a	Data Sign Off	Dr. Natalie Vereker, InterRAI Ireland Project Manager
6b	Data Quality Issues	Only signed off assessments to be included (draft assessments will be excluded)
7	Data Collection Frequency	Daily; Weekly; Monthly; As the assessment data is stored in an information system, data can be collected in "real-time" by users with the appropriate level of access to the system.
8	Tracer Conditions	
9	Minimum Data Set MDS	The InterRAI Ireland Assessment Information System will be used to identify the Number of Assessments.  Only Completed / Signed Off Assessments will be included
10	International Comparison	interRAI assessment systems are used internationally in over 35 countries including: Japan, South Korea, Taiwan, China, Australia, Hong Kong, New Zealand, Singapore, Israel, India, Lebanon, Iceland, Norway, Sweden, Denmark, Finland, Netherlands, Germany, UK, Switzerland, France, Poland, Italy, Spain, Belgium, Estonia, Lithuania, Czech Republic, Austria, Portugal, Canada, USA, Mexico, Belize, Cuba
11	KPI Monitoring	Monthly;
12	KPI Reporting Frequency	Monthly
13	KPI Report Period	Monthly
14	KPI Reporting Aggregation	National ;CHO
15	KPI is reported in which reports?	Annual Report, Performance Report, Performance Profile, MDR,
16	Web link to data	http://www.hse.ie/eng/services/publications/performancereports/
17	Additional Information	Is the data for this KPI available through Corporate Information Facility (CIF)?  Yes
