Audiology		
1	KPI Title	PC129 - No. of Audiology Patients Seen
1a	KPI Short Title	N/A
2	KPI Description	This is a composite metric. It is the sum of the number of existing audiology patients seen face to face, by telephone, video and audio conferencing in the reporting month and the number of new audiology patients seen face to face, by telephone, video and audio conferencing in the reporting month. An existing patient is defined as a patient who is currently attending the service and is an open case. It includes patients who attend individual appointments or group sessions. A new patient is a patient that is seen for the first time in this episode of care. It includes patients re-referred to the service. Each patient is only included once in the count in the reporting period i.e. he / she is counted either as an existing patient or a new patient in the reporting month, not as both.
3	KPI Rationale	This metric provides information on audiology service activity and informs decisions in relation to the planning and management of staff and resource allocation.
3a	Indicator Classification	Access and Integration
4	National Target	NSP 2025 National Target - 58,000
4a	Target Trajectory	(HSE Dublin & Midlands) 9,546, (HSE Dublin & North East) 11,284, (HSE Dublin & South East) 10,690, (HSE Mid West) 4,458, (HSE South West) 9,388, (HSE West & North West) 12,634
4b	Volume Metrics	N/A
5	KPI Calculation	Count the number of existing audiology patients seen in the reporting month and add it to the number of new audiology patients seen in the reporting month. Each patient is only included once in the count in the reporting period i.e. he / she is counted either as an existing patient or a new patient in the reporting month, not as both.
6	Data Source	Patient records, Audiology Manager, Health and Social Care Manager, Regional Director of Planning and Performance, IHA Manager, Regional Executive Officer to the National Business Information Unit (NBIU) Community Healthcare Team.
6a	Data Sign Off	Health Region
6b	Data Quality Issues	No
7	Data Collection Frequency	Monthly
8	Tracer Conditions	•Existing audiology patients seen • New audiology patients seen
9	Minimum Data Set MDS	•Existing audiology patients seen • New audiology patients seen
10	International Comparison	No
11	KPI Monitoring	Monthly
12	KPI Reporting Frequency	Monthly
13	KPI Report Period	Monthly Current (monthly data reported by the 10th of the following month)
14	KPI Reporting Aggregation	National / Health Region / Integrated Healthcare Area / LHO
15	KPI is reported in which reports?	Management Data Report / Annual Report
16	Web link to data	http://www.hse.ie/eng/services/publications/
17	Additional Information	N/A
18	KPI owner/lead for implementation	TJ Dunford, Assistant National Director, Primary Care Access and Integration, Health Service Executive
19	BIU data support	Brian Timmons, Data Analyst, Primary Care Services, 087 3598588 Email:brian.timmons@hse.ie
20	ND/AND	David Walsh, Access and Integration, National Director - Access and Integration, Health Service Executive

Audiology		
1	KPI Title	PC108G - % of audiology patients on waiting list for treatment ≤ 52 weeks
1a	KPI Short Title	% on waiting list for treatment ≤52 weeks
2	KPI Description	This is a calculation of the number of new audiology patients (all age bands*) who are waiting ≤ 52 weeks to be seen by an audiologist (either in an individual or in a group environment) expressed as a proportion of the overall number of audiology patients (all wait times**) waiting for these services at the end of the reporting month, multiplied by 100. It includes all patients on the waiting list waiting ≤ 52 weeks at the end of the reporting month. Patients are only removed from the waiting list when they have been seen for a first appointment, it is not sufficient for a patient to have been offered an appointment. Note the focus of this metric is on patients waiting for treatment, within some services assessment and treatment may occur at the same appointment. However, where a patient is assessed and must still wait for treatment it is the waiting time from referral date to treatment date that is reported. Opt in patients are included on the waiting list. If they do not respond within four weeks they are discharged and must be re-referred. This metric should not include patients overdue for review *Age bands include: • 0 - 4 years • 5 - 17 years • 18 - 64 years • 65 years and over. **Wait times include: • 0 - ≤ 12 weeks • > 12 weeks - ≤ 26 weeks • > 26 weeks - ≤ 39 weeks • > 39 weeks - ≤ 52 weeks • > 52 weeks.
3	KPI Rationale	The purpose of this metric is to monitor audiology waiting lists and to reduce wait times for patients.
3a	Indicator Classification	Access and Integration
4	National Target	NSP 2025 National Target - 75%
4a	Target Trajectory	(HSE Dublin & Midlands) 75%, (HSE Dublin & North East) 75%, (HSE Dublin & South East) 75%, (HSE Mid West) 75%, (HSE South West) 75%, (HSE West & North West) 75%
4b	Volume Metrics	N/A
5	KPI Calculation	Count the total number of audiology patients in all age bands* on the treatment waiting list at the end of the reporting period by wait time 0 - ≤ 12 weeks + >12 weeks - ≤ 26 weeks + >26 weeks - ≤ 39 weeks + >39 weeks - ≤ 52 weeks and express it as a proportion of the total number of audiology patients in all age bands* on the treatment waiting list at the end of the reporting period by wait time 0 - ≤ 12 weeks + >12 weeks - ≤ 26 weeks + >26 weeks - ≤ 39 weeks + >39 weeks - ≤ 52 weeks + > 52 weeks and multiply by 100. Numerator: The number of audiology patients (all ages) waiting to be seen by wait time 0 - ≤ 12 weeks + >12 weeks - ≤ 26 weeks + >26 weeks - ≤ 39 weeks + >39 weeks - ≤ 52 weeks. Denominator: The number of audiology patients (all ages) waiting to be seen by wait time 0 - ≤ 12 weeks + >12 weeks - ≤ 26 weeks + >26 weeks - ≤ 39 weeks + >39 weeks - ≤ 52 weeks + > 52 weeks x 100.
6	Data Source	Patient records, Audiology Manager, Health and Social Care Manager, Regional Director of Planning and Performance, IHA Manager, Regional Executive Officer to the National Business Information Unit (NBIU) Community Healthcare Team.
6a	Data Sign Off	Health Region
6b	Data Quality Issues	No
7	Data Collection Frequency	Monthly
8	Tracer Conditions	•Audiology Patients waiting to be seen•Age bands•Wait times
9	Minimum Data Set MDS	•Audiology Patients waiting to be seen •Age bands•Wait times

Child Health		
1	KPI Title	PC135 - % of infants breastfed (exclusively and partially (not exclusively)) at the Public Health Nurse (PHN) primary (first) visit
1a	KPI Short Title	N/A
2	KPI Description	This is a calculation of the number of infants seen at the primary (first) postnatal Public Health Nurse (PHN) visit who were breastfed (exclusively and partially (not exclusively)) within the last 24 hours expressed as a proportion of the overall number of infants seen at the primary (first) postnatal Public Health Nurse (PHN) visit, multiplied by 100. The following definitions, adapted from the World Health Organisation (WHO) definitions apply: Breastfeeding: The infant has received breast milk (direct from the breast or expressed). Exclusive breastfeeding: The infant has received only breast milk from his / her mother, or expressed breast milk, and no other liquids or solids with the exception of drops or syrups consisting of vitamins, mineral supplements or medicines. Partially (Not exclusively) breastfeeding: The infant receives some breastfeeds, and some artificial feeds, either milk or cereal or other foods (WHO 2003 & WHO/EURO 2001).
3	KPI Rationale	Increasing breastfeeding rates and duration is a Department of Health (DoH) and Health Service Executive (HSE) target. Not breastfeeding increases the risk of acute infant illnesses and chronic diseases, with significant costs to the health service. International evidence shows that increasing breastfeeding rates results in improved health and cost savings to the health service.
3a	Indicator Classification	Quality and Safety
4	National Target	NSP 2025 National Target - 64%
4a	Target Trajectory	(HSE Dublin & Midlands) 64%, (HSE Dublin & North East) 64%, (HSE Dublin & South East) 64%, (HSE Mid West) 64%, (HSE South West) 64%, (HSE West & North West) 64%
4b	Volume Metrics	N/A
5	KPI Calculation	The number of infants breastfed (exclusively and partially (not exclusively)) within the last 24 hours at the primary (first) Public Health Nurse (PHN) postnatal visit is divided by the total number of infants seen at the primary (first) Public Health Nurse (PHN) postnatal visit for the reporting period and multiplied by 100. Numerator: the number of infants breastfed (exclusively and partially (not exclusively)) within the last 24 hours at the primary (first) Public Health Nurse (PHN) postnatal visit in the reporting period. Denominator: the number of infants seen at the primary (first) Public Health Nurse (PHN) postnatal visit in the reporting period x 100.
6	Data Source	The data source is Public Health Nurse (PHN) records. Data is provided by PHNs to the Director of Public Health Nursing (DPHN), Health and Social Care Manager, Regional Director of Planning and Performance, IHA Manager, Regional Executive Officer to the National Business Information Unit (NBIU) Community Healthcare Team.
6a	Data Sign Off	Health Region
6b	Data Quality Issues	No
7	Data Collection Frequency	Quarterly
8	Tracer Conditions	•Number of infants seen at primary (first) Public Health Nurse (PHN) post natal visit •Number of infants breastfed exclusively and partially (not exclusively)) at primary (first) Public Health Nurse (PHN) post natal visit.
9	Minimum Data Set MDS	•Number of infants seen at primary (first) Public Health Nurse (PHN) post natal visit •Number of infants breastfed exclusively and partially (not exclusively)) at the primary (first) Public Health Nurse (PHN) post natal visit.
10	International Comparison	Exclusive breastfeeding for 6 months for all infants is recommended by the WHO and DoH. Thereafter once complementary foods are introduced it is recommended that breastfeeding continues for up to 2 years and beyond. Prevalence of breastfeeding at up to six months is reported in Northern Ireland, including initiation and discharge data, and data collected by health visitors at 10 days; 6 weeks; 3 months and 6 months.
11	KPI Monitoring	Quarterly, one quarter in arrears
12	KPI Reporting Frequency	Quarterly, one quarter in arrears
13	KPI Report Period	Quarterly in arrears. Data is reported by the 10th of the month following the end of the next quarter.
14	KPI Reporting Aggregation	National / Health Region / Integrated Healthcare Area / LHO
15	KPI is reported in which reports?	Management Data Report / Annual Report

Child Health		
1	KPI Title	PC153 - % of children reaching 12 months within the reporting period who have had their 9 – 11 month Public Health Nurse (PHN) child health and development assessment on time or before reaching 12 months of age
1a	KPI Short Title	
2	KPI Description	This is a calculation of the number of children who by reaching 12 months of age in the reporting period have had their 9-11 months child health and development assessment by a Public Health Nurse (PHN) expressed as a proportion of all of the children reaching 12 months of age during the reporting period, multiplied by 100.
3	KPI Rationale	Developmental surveillance is a procedure designed to identify children who should receive more intensive assessment or diagnosis, for potential developmental delays or physical defects (e.g. strabismus; undescended testes). It can allow for earlier detection of delays and improve infant health and well-being outcomes for identified children. It is recommended by the Developmental Surveillance Subgroup of the National Steering Group for the Revised Child Health Programme and based on the latest evidence on developmental surveillance, that the timeframe for the provision of this child health contact change from 7 to 9 months to 9 to 11 months.
3a	Indicator Classification	Quality and Safety
4	National Target	NSP 2025 National Target - 95%
4a	Target Trajectory	(HSE Dublin & Midlands) 95%, (HSE Dublin & North East) 95%, (HSE Dublin & South East) 95%, (HSE Mid West) 95%, (HSE South West) 95%, (HSE West & North West) 95%
4b	Volume Metrics	N/A
5	KPI Calculation	The number of children having a child health and development assessment completed by 12 months of age in the reporting period is divided by the number of children reaching 12 months of age in the reporting period and multiplied by 100 e.g. Health Region had 89 children who completed assessment, with 108 children reaching 12 months of age in the reporting period, the percentage is calculated as: $89 / 108 \times 100 = 82\%$.
6	Data Source	The data source is Public Health Nurse (PHN) records. Data is provided by PHNs to the Director of Public Health Nursing (DPHN), Health and Social Care Manager, Regional Director of Planning and Performance, IHA Manager, Regional Executive Officer to the National Business Information Unit (NBIU) Community Healthcare Team.
6a	Data Sign Off	Health Region
6b	Data Quality Issues	No
7	Data Collection Frequency	Monthly
8	Tracer Conditions	•The total number of children reaching 12 months of age during the reporting period. •The number of children reaching 12 months of age during the reporting period who have had their 9 -11 month Public Health Nurse (PHN) child health and development assessment on time or before reaching 12 months of age.
9	Minimum Data Set MDS	•The total number of children reaching 12 months of age during the reporting period. •The number of children reaching 12 months of age during the reporting period who have had their 9-11 month child health and development assessment before reaching 12 months of age.
10	International Comparison	Public Health Nurse (PHN) conducts development health screening as recommended by the Child Health Screening & Surveillance Programme (CHSS).
11	KPI Monitoring	Monthly in arrears
12	KPI Reporting Frequency	Monthly in arrears
13	KPI Report Period	Monthly one month in arrears i.e data is reported by the 10th of the month following the end of the next month e.g. June data reported in August.
14	KPI Reporting Aggregation	National / Health Region / Integrated Healthcare Area / LHO
15	KPI is reported in which reports?	Management Data Report / Annual Report
16	Web link to data	http://www.hse.ie/eng/services/publications/
17	Additional Information	N/A
18	KPI owner/lead for implementation	Anne Pardy, Programme Manager, National Healthy Childhood Programme, 057 9358455, anne.pardy@hse.ie
19	BIU data support	Brian Timmons, Data Analyst, Primary Care Services, 087 3598588 Email:brian.timmons@hse.ie
20	ND/AND	Dr. Abigail Collins, Consultant in Public Health Medicine, National Clinical Lead Child Health Public Health David Walsh, Access and Integration, National Director - Access and Integration, Health Service Executive

Child Health		
1	KPI Title	PC133 - % of infants visited by a Public Health Nurse (PHN) within 72 hours of discharge from maternity services.
1a	KPI Short Title	N/A
2	KPI Description	This is a calculation of the number of new born babies visited by a PHN for the first time within 72 hours of discharge from maternity services expressed as a proportion of the overall number of newborn babies discharged from maternity services in the reporting period, multiplied by 100. A new born baby is defined as a baby who has been discharged from (i) in-patient maternity services (ii) Domino Service (iii) Early Transfer Home Scheme and (iv) Home Birth Services.
3	KPI Rationale	This data underpins PHN roles in supporting mother and baby and in health promotion. In particular a timely PHN visit supports breastfeeding, a core element of post-natal support.
3a	Indicator Classification	Quality and Safety
4	National Target	NSP 2025 National Target - 99%
4a	Target Trajectory	(HSE Dublin & Midlands) 99%, (HSE Dublin & North East) 99%, (HSE Dublin & South East) 99%, (HSE Mid West) 99%, (HSE South West) 99%, (HSE West & North West) 99%
4b	Volume Metrics	N/A
5	KPI Calculation	The number of new born babies visited by a PHN within 72 hours of discharge from (i) in-patient maternity services (ii) Domino Service (iii) Early Transfer Home Scheme and (iv) Home Birth Services is divided by the total number of newborn babies discharged from (i) in-patient maternity services (ii) Domino Service (iii) Early Transfer Home Scheme and (iv) Home Birth Services during the reporting period and multiplied by 100. Numerator: Number of newborn babies visited by a PHN within 72 hours of discharge from (i) in-patient maternity services (ii) Domino Service (iii) Early Transfer Home Scheme and (iv) Home Birth Services during the reporting period. Denominator: Number of newborn babies discharged from (i) in-patient maternity services (ii) Domino Service (iii) Early Transfer Home Scheme and (iv) Home Birth Services during the reporting period x 100. (e.g. Health Region has 369 babies discharged, 367 received a PHN Visit within 72 hours therefore $367 / 369 \times 100\% = 99\%$).
6	Data Source	Data is provided by PHNs / Community Midwives to the Director of Public Health Nursing (DPHN), Health and Social Care Manager, Regional Director of Planning and Performance, IHA Manager, Regional Executive Officer to the National Business Information Unit (NBIU) Community Healthcare Team.
6a	Data Sign Off	Health Region
6b	Data Quality Issues	No
7	Data Collection Frequency	Quarterly
8	Tracer Conditions	•The total number of newborn babies discharged for the first time from (i) in-patient maternity services (ii) Domino Service (iii) Early Transfer Home Scheme and (iv) Home Birth Services during the reporting period •Number of newborn babies visited by a PHN within 72 hours of discharge from (i) in-patient maternity services (ii) Domino Service (iii) Early Transfer Home Scheme and (iv) Home Birth Services during the reporting period.
9	Minimum Data Set MDS	•The total number of newborn babies discharged for the first time from (i) in-patient maternity services (ii) Domino Service (iii) Early Transfer Home Scheme and (iv) Home Birth Services during the reporting period •Number of newborn babies visited by a PHN within 72 hours of discharge from (i) in-patient maternity services (ii) Domino Service (iii) Early Transfer Home Scheme and (iv) Home Birth Services during the reporting period.
10	International Comparison	Community health services to mothers and babies are not standard or comparable across countries. Most other countries have a separate dedicated service that provides maternal and child health services alone and are thus able to achieve much more intensive visits and medical check for babies, young children and their mothers / families. WHO / UNICEF advocate timely, appropriate and accessible community health service support for new mothers and babies.
11	KPI Monitoring	Quarterly
12	KPI Reporting Frequency	Quarterly
13	KPI Report Period	Quarterly current i.e. data reported by the 10th of the month following the end of the quarter.
14	KPI Reporting Aggregation	National / Health Region / Integrated Healthcare Area / LHO
15	KPI is reported in which reports?	Management Data Report / Annual Report

Chronic Disease Structured Management Programme

1	KPI Title	PC152 - Chronic Disease Structured Management Programme (excluding high risk reviews) - No. of reviews undertaken (2 reviews per patient in a 12 month rolling period)
1a	KPI Short Title	N/A
2	KPI Description	To measure the number of Chronic Disease Structured Management Programme reviews undertaken by GP's with their patients
3	KPI Rationale	As above
3a	Indicator Classification	Access and Integration
4	National Target	NSP 2025 National Target - 632,036
4a	Target Trajectory	N/A
4b	Volume Metrics	N/A
5	KPI Calculation	No. of reviews undertaken (2 reviews per patient in a 12 month rolling period)
6	Data Source	PCRS CDM Activity Reports
6a	Data Sign Off	Assistant National Director ECC Programme
6b	Data Quality Issues	No
7	Data Collection Frequency	Bi-Annual, one month in arrears
8	Tracer Conditions	N/A
9	Minimum Data Set MDS	PCRS CDM Activity Reports
10	International Comparison	No
11	KPI Monitoring	Bi-Annual, one month in arrears
12	KPI Reporting Frequency	Bi-Annual, one month in arrears
13	KPI Report Period	Bi-Annual, one month in arrears
14	KPI Reporting Aggregation	National
15	KPI is reported in which reports?	ECC Balanced Scorecard/Management Data Report / Annual Report
16	Web link to data	http://www.hse.ie/eng/services/publications/
17	Additional Information	N/A
18	KPI owner/lead for implementation	Geraldine Crowley, Assistant National Director, Enhanced Community Care Programme & Primary Care Contracts

20	ND/AND	Pat Healy National Director - HSE National Services & Schemes

Community Intervention Team		
1	KPI Title	PC123 - Community Intervention Teams (Total No. of CIT referrals)
1a	KPI Short Title	N/A
2	KPI Description	This is a count of the number of referrals accepted by the Community Intervention Teams (CITs) in the reporting month. Referrals accepted must be recorded per patient, and should be allocated to one referral source only.
3	KPI Rationale	This metric allows the number of referrals accepted by CITs in the reporting month to be recorded and monitored.
3a	Indicator Classification	Access and Integration
4	National Target	NSP 2025 National Target - 81,372
4a	Target Trajectory	(HSE Dublin & Midlands) 4,476 (HSE Dublin & North East) 11,772, (HSE Dublin & South East) 25,188, (HSE Mid West) 8,904, (HSE South West) 13,872, (HSE West & North West) 17,160
4b	Volume Metrics	N/A
5	KPI Calculation	Count the number of referrals accepted by CITs in the reporting month.
6	Data Source	CITs
6a	Data Sign Off	Health Region
6b	Data Quality Issues	No
7	Data Collection Frequency	Monthly
8	Tracer Conditions	CIT referrals accepted in the reporting month
9	Minimum Data Set MDS	CIT referrals accepted in the reporting month
10	International Comparison	No
11	KPI Monitoring	Monthly
12	KPI Reporting Frequency	Monthly
13	KPI Report Period	Monthly current (monthly data reported by the 10th of the following month)
14	KPI Reporting Aggregation	National / Health Region / CIT
15	KPI is reported in which reports?	Management Data Report / Annual Report
16	Web link to data	http://www.hse.ie/eng/services/publications/
17	Additional Information	N/A
18	KPI owner/lead for implementation	TJ Dunford, Assistant National Director, Primary Care Access and Integration, Health Service Executive

20	ND/AND	David Walsh, Access and Integration, National Director - Access and Integration, Health Service Executive

Dietetics		
1	KPI Title	PC130 - No. of Dietetics Patients Seen
1a	KPI Short Title	N/A
2	KPI Description	This is a composite metric. It is the sum of the number of existing dietetic patients seen face to face, by telephone, video and audio conferencing in the reporting month and the number of new dietetic patients seen face to face, by telephone, video and audio conferencing in the reporting month. An existing patient is defined as a patient who is currently attending the service and is an open case. It includes patients who attend individual appointments or group sessions. A new patient is a patient that is seen for the first time in this episode of care. It includes patients re-referred to the service. Each patient is only included once in the count in the reporting period i.e. he / she is counted either as an existing patient or a new patient in the reporting month, not as both.
3	KPI Rationale	This metric provides information on dietetic service activity and informs decisions in relation to the planning and management of staff and resource allocation.
3a	Indicator Classification	Access and Integration
4	National Target	NSP 2025 National Target - 68,640
4a	Target Trajectory	(HSE Dublin & Midlands) 9,672, (HSE Dublin & North East) 10,572 , (HSE Dublin & South East) 14,040, (HSE Mid West) 2,196, (HSE South West) 18,624 (HSE West & North West) 13,536
4b	Volume Metrics	N/A
5	KPI Calculation	Count the number of existing dietetic patients seen in the reporting month and add it to the number of new dietetic patients seen in the reporting month. Each patient is only included once in the count in the reporting period i.e. he / she is counted either as an existing patient or a new patient in the reporting month, not as both.
6	Data Source	Patient records, Dietitian Manager, Health and Social Care Manager, Regional Director of Planning and Performance, IHA Manager, Regional Executive Officer to the National Business Information Unit (NBIU) Community Healthcare Team.
6a	Data Sign Off	Health Region
6b	Data Quality Issues	No
7	Data Collection Frequency	Monthly
8	Tracer Conditions	•Existing dietetic patients seen • New dietetic patients seen
9	Minimum Data Set MDS	•Existing dietetic patients seen • New dietetic patients seen
10	International Comparison	No
11	KPI Monitoring	Monthly
12	KPI Reporting Frequency	Monthly
13	KPI Report Period	Monthly current (monthly data reported by the 10th of the following month)
14	KPI Reporting Aggregation	National / Health Region

18	KPI owner/lead for implementation	TJ Dunford, Assistant National Director, Primary Care Access and Integration, Health Service Executive
19	BIU data support	Brian Timmons, Data Analyst, Primary Care Services, 087 3598588 Email:brian.timmons@hse.ie
20	ND/AND	David Walsh, Access and Integration, National Director - Access and Integration, Health Service Executive

Dietetics		
1	KPI Title	PC109G - % of dietetic patients on waiting list for treatment ≤ 52 weeks
1a	KPI Short Title	% on waiting list for treatment ≤52 weeks
2	KPI Description	This is a calculation of the number of new dietetic patients (all age bands*) who are waiting ≤ 52 weeks to be seen by a dietitian (either in an individual or in a group environment) expressed as a proportion of the overall number of dietetic patients (all wait times**) waiting for these services at the end of the reporting month, multiplied by 100. It includes all patients on the waiting list waiting ≤ 52 weeks at the end of the reporting month. Patients are only removed from the waiting list when they have been seen for a first appointment, it is not sufficient for a patient to have been offered an appointment. Note the focus of this metric is on patients waiting for treatment, within some services assessment and treatment may occur at the same appointment. However, where a patient is assessed and must still wait for treatment it is the waiting time from referral date to treatment date that is reported. Opt in patients are included on the waiting list. If they do not respond within four weeks they are discharged and must be re-referred. This metric should not include patients overdue for review. *Age bands include: • 0 - 4 years • 5 - 17 years • 18 - 64 years • 65 years and over. **Wait times include: • 0 - ≤ 12 weeks • >12 weeks - ≤ 26 weeks • >26 weeks - ≤ 39 weeks • >39 weeks - ≤ 52 weeks • > 52 weeks.
3	KPI Rationale	The purpose of this metric is to monitor dietetic waiting lists and reduce wait times for patients.
3a	Indicator Classification	Access and Integration
4	National Target	NSP 2025 National Target - 80%
4a	Target Trajectory	(HSE Dublin & Midlands) 80%, (HSE Dublin & North East) 80%, (HSE Dublin & South East) 80%, (HSE Mid West) 80%, (HSE South West) 80% (HSE West & North West) 80%
4b	Volume Metrics	N/A
5	KPI Calculation	Count the total number of dietetic patients in all age bands* on the treatment waiting list at the end of the reporting period by wait time 0 - ≤ 12 weeks + >12 weeks - ≤ 26 weeks + >26 weeks - ≤ 39 weeks + >39 weeks - ≤ 52 weeks and express it as a proportion of the total number of dietetic patients in all age bands* on the treatment waiting list at the end of the reporting period by wait times 0 - ≤ 12 weeks + >12 weeks - ≤ 26 weeks + >26 weeks - ≤ 39 weeks + >39 weeks - ≤ 52 weeks + > 52 weeks and multiply by 100. Numerator: The number of dietetic patients (all ages) waiting to be seen by wait times 0 - ≤ 12 weeks + >12 weeks - ≤ 26 weeks + >26 weeks - ≤ 39 weeks + > 39 weeks - ≤ 52 weeks. Denominator: The number of dietetic patients (all ages) waiting to be seen by wait times 0 - ≤ 12 weeks + > 12 weeks - ≤ 26 weeks + > 26 weeks - ≤ 39 weeks + > 39 weeks - ≤ 52 weeks + > 52 weeks x 100.
6	Data Source	Patient records, Dietitian Manager, Health and Social Care Manager, Regional Director of Planning and Performance, IHA Manager, Regional Executive Officer to the National Business Information Unit (NBIU) Community Healthcare Team.
6a	Data Sign Off	Health Region
6b	Data Quality Issues	No
7	Data Collection Frequency	Monthly
8	Tracer Conditions	•Dietetic patients waiting to be seen •Age bands •Wait times

GP Out of Hours		
1	KPI Title	PC11 - No. of contacts with GP Out of Hours Services
1a	KPI Short Title	N/A
2	KPI Description	This is a count of the total number of contacts (by category*) made by patients with GP Out of Hours Services (excluding reduced hour services from 6pm-10pm and at weekends) during the reporting month. * Categories include: • triage only • treatment centers • home visits • other which refers to contacts where callers are seeking information, and are not triaged by a clinician.
3	KPI Rationale	To capture the number of contacts made by patients with GP Out of Hours Services nationally in order to monitor activity and service pressures.
3a	Indicator Classification	Access and Integration
4	National Target	NSP 2025 National Target - 1,217,015
4a	Target Trajectory	(HSE Dublin & Midlands) 166,465, (HSE Dublin & North East) 211,614, (HSE Dublin & South East) 330,971, (HSE Mid West) 102,490, (HSE South West) 234,198, (HSE West & North West) 171,277
4b	Volume Metrics	N/A
5	KPI Calculation	Count the total number of contacts (all categories*) made by patients with GP Out of Hours Services (excluding contacts with reduced hour services from 6pm-10pm and at weekends) during the reporting month.
6	Data Source	GP Out of Hours Services to the National Business Information Unit (NBIU).
6a	Data Sign Off	REO, Regional Health Areas
6b	Data Quality Issues	No known data quality issues.
7	Data Collection Frequency	Monthly
8	Tracer Conditions	Contacts (all categories and ages) with GP Out of Hours Services during the reporting month.
9	Minimum Data Set MDS	Contacts (all categories and ages) with GP Out of Hours Services during the reporting month.
10	International Comparison	No
11	KPI Monitoring	Monthly
12	KPI Reporting Frequency	Monthly
13	KPI Report Period	Monthly current (e.g. monthly data reported by the 10th of the following month)
14	KPI Reporting Aggregation	National / Health Region / GP Out of Hours Service

GP Trainees		
1	KPI Title	PC150 - No. of Trainees
1a	KPI Short Title	N/A
2	KPI Description	This is a count of the number of GP Trainees nationally
3	KPI Rationale	To track the growth in trained GP's
3a	Indicator Classification	Access and Integration
4	National Target	NSP 2025 National Target - 350
4a	Target Trajectory	350 (Annual)
4b	Volume Metrics	N/A
5	KPI Calculation	Count of the total number of GP Trainees.
6	Data Source	GP Trainees Service
6a	Data Sign Off	REO, Regional Health Areas
6b	Data Quality Issues	No known data quality issues.
7	Data Collection Frequency	Annually
8	Tracer Conditions	No. of GP Trainees per annum
9	Minimum Data Set MDS	No. of GP Trainees per annum
10	International Comparison	No
11	KPI Monitoring	Annually
12	KPI Reporting Frequency	Annually
13	KPI Report Period	Annual (October) (e.g. monthly data reported by the 10th of the following month)
14	KPI Reporting Aggregation	National / GP Trainees
15	KPI is reported in which reports?	Management Data Report / Annual Report

Health Amendment Act		
1	KPI Title	PC119 - No. of Health Amendment Act cardholders who were reviewed
1a	KPI Short Title	N/A
2	KPI Description	This is a count of the number of Health Amendment Act (HAA) 1996 cardholders who had their health needs reviewed during the reporting period. Individuals who contracted Hepatitis C from the administration within the state of contaminated blood or blood products and hold a HAA card are entitled to a range of services including General Practitioner services, all prescribed drugs, medicines and appliances, dental and ophthalmic services, home support, home nursing, counselling services and other services without charge. HAA cardholders have their health needs reviewed to ensure that adequate service responses are in place to address their needs.
3	KPI Rationale	Regular review of health needs ensures that adequate service responses are in place for HAA cardholders and that any changes in needs are addressed in collaboration with the individual cardholder.
3a	Indicator Classification	Quality and Safety
4	National Target	NSP 2025 National Target - 300
4a	Target Trajectory	(HSE Dublin & Midlands) 80, (HSE Dublin & North East) 80, (HSE Dublin & South East) 80, (HSE Mid West) 20, (HSE South West) 20, (HSE West & North West) 20
4b	Volume Metrics	N/A
5	KPI Calculation	Count the number of HAA cardholders who were reviewed during the reporting quarter.
6	Data Source	Hepatitis C Liaison Officers, Hepatitis C National Coordinator to the National Business Information Unit (NBIU) Community Healthcare Team.
6a	Data Sign Off	Health Region
6b	Data Quality Issues	No
7	Data Collection Frequency	Quarterly
8	Tracer Conditions	HAA Cardholders who were reviewed
9	Minimum Data Set MDS	HAA Cardholders who were reviewed
10	International Comparison	No
11	KPI Monitoring	Quarterly
12	KPI Reporting Frequency	Quarterly
13	KPI Report Period	Quarterly current (data reported for each quarter by the 10th of the month following the end of the quarter)
14	KPI Reporting Aggregation	National / Health Region

Healthcare Associated Infections: Medication Management

1	KPI Title	PC102 - Consumption of antibiotics in community settings (defined daily doses per 1,000 population per day based on wholesaler to community pharmacy sales - not prescription level data)
1a	KPI Short Title	N/A
2	KPI Description	This is a calculation of the rate of consumption of antibiotics in the ambulatory (non-hospital) setting where the monthly rate is reported as defined daily doses (DDD) per 1,000 population per day (DID).
3	KPI Rationale	Community antibiotic use is strongly linked to antimicrobial resistance, which is a major public health threat.
3a	Indicator Classification	Quality and Safety
4	National Target	NSP 2025 National Target <21.0
4a	Target Trajectory	N/A
4b	Volume Metrics	N/A
5	KPI Calculation	Rate reported as defined daily doses (DDD) per 1,000 population per day (DID) Numerator data: Aggregate data on wholesale supply of systemic antimicrobials to community pharmacies, purchased from vendor. (Prescription level data not available). Denominator data: CSO
6	Data Source	The Health Protection Surveillance Centre (HPSC) coordinates the publication of this data.
6a	Data Sign Off	HPSC Consultant Microbiologist/delegate
6b	Data Quality Issues	Changes to ATC coding and DDD definitions from WHO can impact on interpretation of results.
7	Data Collection Frequency	Quarterly
8	Tracer Conditions	Data supply from IQVIA.
9	Minimum Data Set MDS	Quarterly data supply from IQVIA.
10	International Comparison	Uses WHO-approved methodology. Part of Europe-wide standardised surveillance programme (European Surveillance of Antimicrobial Consumption (ESAC) network). National data from all participating European countries available for comparison.
11	KPI Monitoring	Quarterly
12	KPI Reporting Frequency	Quarterly 1Q in arrears
13	KPI Report Period	Quarterly in arrears (Quarter 1 data reported in Quarter 2)
14	KPI Reporting Aggregation	National
15	KPI is reported in which reports?	Management Data Report / Annual Report
16	Web link to data	https://www.hpsc.ie
17	Additional Information	Reports on community antibiotic consumption for participating European countries available at www.ecdc.eu
18	KPI owner/lead for implementation	Dr. Eimear Brannigan, Clinical Lead, Antimicrobial Resistance and Infection Control Team
19	BIU data support	Brian Timmons, Data Analyst, Primary Care Services, 087 3598588 Email:brian.timmons@hse.ie
20	ND/AND	Grace Rothwell, Access and Integration, National Director - Access and Integration, Health Service Executive

Nursing		
1	KPI Title	PC132 - No. of Nursing Patients Seen
1a	KPI Short Title	N/A
2	KPI Description	This is a composite metric. It is the sum of the number of existing nursing patients (all care groups excluding children seen under the core Child Health Screening and Surveillance Programme) on the Public Health Nurse (PHN) caseload who were seen face to face, by telephone, video and audio conferencing in the reporting month and the number of new patients (all care groups excluding children seen under the core Child Health Screening and Surveillance Programme) seen face to face, by telephone, video and audio conferencing in the reporting month. An existing patient is a patient who is currently in receipt of a PHN service from a PHN / Community Registered General Nurse (CRGN) / Health Care Assistant (HCA). A new patient is defined as a patient who is not currently known to the service and is seen for the first time face to face, by telephone, video and audio conferencing in this episode of care including patients re-referred to the service (previously discharged). Children seen under the core Child Health Screening and Surveillance Programme are not included. Each patient is only included once in the count in the reporting period i.e. he / she is counted either as an existing patient or a new patient in the reporting month, not as both.
3	KPI Rationale	This metric provides information on community nursing service activity and informs decisions in relation to the planning and management of staff and resource allocation.
3a	Indicator Classification	Access and Integration
4	National Target	NSP 2025 National Target - 474,366
4a	Target Trajectory	(HSE Dublin & Midlands) 88,693, (HSE Dublin & North East) 83,005, (HSE Dublin & South East) 76,465, (HSE Mid West) 51,337, (HSE South West) 66,649, (HSE West & North West) 108,217
4b	Volume Metrics	N/A
5	KPI Calculation	Count the number of existing nursing patients (all care groups excluding children seen under the core Child Health Screening and Surveillance Programme) on the caseload seen face to face, by telephone, video and audio conferencing by the PHN / CRGN / HCA in the reporting month and add it to the number of new nursing patients (all care groups excluding children seen under the core Child Health Screening and Surveillance Programme) seen face to face, by telephone, video and audio conferencing in the reporting month. Each patient is only included once in the count in the reporting period i.e. he / she is counted either as an existing patient or a new patient in the reporting month, not as both.
6	Data Source	PHNs to the Director of Public Health Nursing (DPHN), Health and Social Care Manager, Regional Director of Planning and Performance, IHA Manager, Regional Executive Officer to the National Business Information Unit (NBIU) Community Healthcare Team.
6a	Data Sign Off	Health Region
6b	Data Quality Issues	N/A
7	Data Collection Frequency	Monthly
8	Tracer Conditions	• Existing nursing patients on the caseload seen •New nursing patients seen
9	Minimum Data Set MDS	• Existing nursing patients on the caseload seen •New nursing patients seen
10	International Comparison	N/A
11	KPI Monitoring	Monthly in arrears
12	KPI Reporting Frequency	Monthly in arrears
13	KPI Report Period	Monthly in arrears i.e data is reported by the 10th of the month following the end of the next month e.g. June data reported in August.
14	KPI Reporting Aggregation	National / Health Region
15	KPI is reported in which reports?	Management Data Report / Annual Report
16	Web link to data	http://www.hse.ie/eng/services/publications/

Nursing		
1	KPI Title	PC110A - % of new Nursing patients accepted onto the Nursing caseload and seen within 12 weeks
1a	KPI Short Title	New patient access within 12 weeks
2	KPI Description	This is a calculation of the number of new nursing patients (all care groups excluding children seen under the core Child Health Screening and Surveillance Programme) who have been accepted onto the Public Health Nurse (PHN) caseload and seen in the previous 12 weeks (three calendar months) expressed as a proportion of the overall number of new patients (all care groups excluding children seen under the core Child Health Screening and Surveillance Programme) accepted onto the nursing caseload in the previous 12 weeks (three calendar months), multiplied by 100.
3	KPI Rationale	Timely access to primary care nursing services is essential to ensure best patient outcomes. This metric allows for monitoring of patients who receive this service within 12 weeks (three calendar months) of acceptance onto the PHN caseload.
3a	Indicator Classification	Access and Integration
4	National Target	NSP 2025 National Target - 100%
4a	Target Trajectory	(HSE Dublin & Midlands) 100%, (HSE Dublin & North East) 100%, (HSE Dublin & South East) 100%, (HSE Mid West) 100%, (HSE South West) 100%, (HSE West & North West) 100%
4b	Volume Metrics	N/A
5	KPI Calculation	Count the number of new nursing patients (all care groups excluding children seen under the core Child Health Screening and Surveillance Programme) who have been accepted onto the PHN caseload and have been seen by the PHN / Community Registered General Nurse (CRGN) in the previous 12 weeks (three calendar months) and express it as a proportion of the overall number of new patients (all care groups excluding children seen under the core Child Health Screening and Surveillance Programme) accepted onto the PHN caseload in the previous 12 weeks (three calendar months) and multiply by 100. Numerator: the number of new patients (all care groups excluding children seen under the core Child Health Screening and Surveillance Programme) who have been accepted onto the PHN caseload and have been seen by the PHN / CRGN in the previous 12 weeks (three calendar months). Denominator: the overall number of new patients (all care groups excluding children seen under the core Child Health Screening and Surveillance Programme) accepted onto the PHN caseload in the previous 12 weeks (three calendar months) x 100.
6	Data Source	PHNs to the Director of Public Health Nursing (DPHN), Health and Social Care Manager, Regional Director of Planning and Performance, IHA Manager, Regional Executive Officer to the National Business Information Unit (NBIU) Community Healthcare Team.
6a	Data Sign Off	Health Region
6b	Data Quality Issues	N/A
7	Data Collection Frequency	Monthly in arrears
8	Tracer Conditions	•New nursing patients accepted onto the PHN caseload and seen in the previous 12 weeks (three calendar months) •Total number of new nursing patients accepted onto the PHN caseload in the previous 12 weeks (three calendar months)
9	Minimum Data Set MDS	•New nursing patients accepted onto the PHN caseload and seen in the previous 12 weeks (three calendar months) •Total number of new nursing patients accepted onto the PHN caseload in the previous 12 weeks (three calendar months)
10	International Comparison	N/A
11	KPI Monitoring	Monthly
12	KPI Reporting Frequency	Monthly in arrears
13	KPI Report Period	Monthly in arrears i.e data is reported by the 10th of the month following the end of the next month e.g. June data reported in August.

Occupational Therapy

1	KPI Title	PC124 - No. of Occupational Therapy Patients Seen
1a	KPI Short Title	N/A
2	KPI Description	This is a composite metric. It is the sum of the number of new occupational therapy service users (clients) seen face to face, by telephone, video and audio conference for a first time assessment in the reporting month and the number of occupational therapy service users (clients) treated in the reporting month i.e. occupational therapy service users (clients) who received a 1:1 direct service in person or via telephone, video and audio conferencing or an indirect intervention only.
3	KPI Rationale	This metric provides information on occupational therapy service activity and informs decisions in relation to the planning and management of staff and resource allocation.
3a	Indicator Classification	Access and Integration
4	National Target	NSP 2025 National Target - 389,256
4a	Target Trajectory	(HSE Dublin & Midlands) 83,357, (HSE Dublin & North East) 86,803, (HSE Dublin & South East) 71,430, (HSE Mid West) 40,542, (HSE South West) 41,706, (HSE West & North West) 65,418
4b	Volume Metrics	N/A
5	KPI Calculation	Count the number of occupational therapy service users (clients) seen for a first time assessment in the reporting period and add it to the number of service users (clients) treated (i.e. Occupational therapy service users (clients) who received a 1:1 direct or an indirect service only) in the reporting period.
6	Data Source	Occupational Therapy (OT) records, OT Manager, Health and Social Care Manager, Regional Director of Planning and Performance, IHA Manager, Regional Executive Officer to the National Business Information Unit (NBIU) Community Healthcare Team.
6a	Data Sign Off	Health Region
6b	Data Quality Issues	No
7	Data Collection Frequency	Monthly
8	Tracer Conditions	• New occupational therapy service users (clients) seen for a first assessment • Occupational therapy service users (clients) who received a 1:1 direct or an indirect service only
9	Minimum Data Set MDS	•New occupational therapy service users (clients) seen for a first assessment •Occupational therapy service users (clients) who received a 1:1 direct or an indirect service only

Occupational Therapy		
1	KPI Title	PC20B - % of new occupational therapy service users seen for assessment within 12 weeks
1a	KPI Short Title	N/A
2	KPI Description	This is a calculation of the number of new occupational therapy service users (clients) (all age bands*) seen for a first time assessment in the reporting period who were seen within 12 weeks of referral expressed as a proportion of the overall number of occupational therapy service users (clients) (all age bands*) seen for assessment (all wait times**) in the reporting period, multiplied by 100. *Age bands include: • 0 - 4 years 11 months, • 5 -17 years 11 months, • 18 - 64 years 11 months, • 65 years and over. Wait times include: • 0 - ≤ 12 weeks • >12 weeks - ≤ 26 weeks • >26 weeks - ≤ 39 weeks • >39 weeks - ≤ 52 weeks • >52 weeks.
3	KPI Rationale	The purpose of this metric is to monitor occupational therapy waiting lists and to provide information to target actions to be taken to reduce wait times for service users (clients).
3a	Indicator Classification	Access and Integration
4	National Target	NSP 2025 National Target - 71%
4a	Target Trajectory	(HSE Dublin & Midlands) 71%, (HSE Dublin & North East) 71%, (HSE Dublin & South East) 71%, (HSE Mid West) 71%, (HSE South West) 71%, (HSE West & North West) 71%
4b	Volume Metrics	N/A
5	KPI Calculation	The number of new occupational therapy service users (clients) (all age bands*) seen for first time assessment in the reporting period by wait time 0 ≤ 12 weeks is expressed as a proportion of the overall number of new occupational therapy service users (clients) (all age bands*) seen for first time assessment in the reporting period (all wait times**), multiplied by 100. Numerator: Number of new occupational therapy service users (clients) seen for a first time assessment in the reporting period by wait time 0 - ≤ 12 weeks. Denominator: Total number of new occupational therapy service users (clients) (all ages) seen for first time assessment in the reporting period by wait times 0 - ≤ 12 weeks + > 12 weeks- ≤ 26 weeks + >26 weeks - ≤ 39 weeks + >39 weeks- ≤ 52 weeks + > 52 weeks x 100.
6	Data Source	Occupational Therapy (OT) records, OT Manager, Health and Social Care Manager, Regional Director of Planning and Performance, IHA Manager, Regional Executive Officer to the National Business Information Unit (NBIU) Community Healthcare Team.

Ophthalmology

1	KPI Title	PC128 - No. of Ophthalmology Patients Seen
1a	KPI Short Title	N/A
2	KPI Description	This is a composite metric. It is the sum of the number of existing ophthalmology patients seen face to face, by telephone, video and audio conferencing in the reporting month and the number of new ophthalmology patients seen face to face, by telephone, video and audio conferencing in the reporting month. An existing patient is defined as a patient who is currently attending the service and is an open case. It includes patients who attend individual appointments. A new patient is a patient that is seen for the first time in this episode of care. It includes patients re-referred to the service. Each patient is only included once in the count in the reporting period i.e. he / she is counted either as an existing patient or a new patient in the reporting month, not as both.
3	KPI Rationale	This metric provides information on ophthalmology service activity and informs decisions in relation to the planning and management of staff and resource allocation.
3a	Indicator Classification	Access and Integration
4	National Target	NSP 2025 National Target - 105,000
4a	Target Trajectory	(HSE Dublin & Midlands) 6,720, (HSE Dublin & North East) 21,085, (HSE Dublin & South East) 23,148, (HSE Mid West) 8,869, (HSE South West) 9,000 (HSE West & North West) 36,178
4b	Volume Metrics	N/A
5	KPI Calculation	Count the number of existing ophthalmology patients seen in the reporting month and add it to the number of new ophthalmology patients seen in the reporting month. Each patient is only included once in the count in the reporting period i.e. he / she is counted either as an existing patient or a new patient in the reporting month, not as both.

Ophthalmology		
1	KPI Title	PC107G - % of ophthalmology patients on waiting list for treatment ≤ 52 weeks
1a	KPI Short Title	% on waiting list for treatment ≤52 weeks
2	KPI Description	This is a calculation of the number of new ophthalmology patients (all age bands*) who are waiting ≤ 52 weeks to be seen, expressed as a proportion of the overall number of ophthalmology patients (all wait times**) waiting for these services at the end of the reporting month multiplied by 100. It includes all patients on the waiting list waiting ≤ 52 weeks at the end of the reporting month. Patients are only removed from the waiting list when they have been seen for a first appointment, it is not sufficient for a patient to have been offered an appointment. Note the focus of this metric is on patients waiting for treatment, within some services assessment and treatment may occur at the same appointment. However, where a patient is assessed and must still wait for treatment it is the waiting time from referral date to treatment date that is reported. Opt in patients are included on the waiting list. If they do not respond within four weeks they are discharged and must be re-referred. This metric should not include patients overdue for review.*Age bands include: • 0 - 4 years • 5 - 17 years • 18 - 64 years • 65 years and over. **Wait times include:• 0 - ≤ 12 weeks • > 12 weeks - ≤ 26 weeks • > 26 weeks - ≤ 39 weeks • > 39 weeks - ≤ 52 weeks • > 52 weeks.
3	KPI Rationale	The purpose of this metric is to monitor ophthalmology waiting lists and reduce wait times for patients
3a	Indicator Classification	Access and Integration
4	National Target	NSP 2025 National Target - 65%
4a	Target Trajectory	(HSE Dublin & Midlands) 65%, (HSE Dublin & North East) 65%, (HSE Dublin & South East) 65%, (HSE Mid West) 65%, (HSE South West) 65%, (HSE West & North West) 65%
4b	Volume Metrics	N/A
5	KPI Calculation	Count the total number of ophthalmology patients in all age bands* on the treatment waiting list at the end of the reporting period by wait times 0 - ≤ 12 weeks + >12 weeks - ≤ 26 weeks + >26 weeks - ≤ 39 weeks + >39 weeks - ≤ 52 weeks and express it as a proportion of the total number of ophthalmology patients in all age bands* on the treatment waiting list at the end of the reporting period by wait times 0 - ≤ 12 weeks + >12 weeks - ≤ 26 weeks + >26 weeks - ≤ 39 weeks + >39 weeks - ≤ 52 weeks + >52 weeks and multiply by 100. Numerator: The number of ophthalmology patients (all ages) waiting to be seen by wait times 0 - ≤ 12 weeks + >12 weeks - ≤ 26 weeks + >26 weeks - ≤ 39 weeks + >39 weeks - ≤ 52 weeks. Ophthalmology		
1	KPI Title	PC107M - % of ophthalmology patients on waiting list for treatment ≤ 12 weeks
1a	KPI Short Title	N/A
2	KPI Description	This is a calculation of the number of new ophthalmology patients (all age bands*) who are waiting ≤ 12 weeks to be seen, expressed as a proportion of the overall number of ophthalmology patients (all wait times**) waiting for these services at the end of the reporting month, multiplied by 100. It includes all patients on the waiting list waiting ≤ 12 weeks at the end of the reporting month. Patients are only removed from the waiting list when they have been seen for a first appointment, it is not sufficient for a patient to have been offered an appointment. Note the focus of this metric is on patients waiting for treatment, within some services assessment and treatment may occur at the same appointment. However, where a patient is assessed and must still wait for treatment it is the waiting time from referral date to treatment date that is reported. Opt in patients are included on the waiting list. If they do not respond within four weeks they are discharged and must be re-referred. This metric should not include patients overdue for review.*Age bands include: • 0 - 4 years • 5 - 17 years • 18 - 64 years • 65 years and over. **Wait times include: • 0 - ≤ 12 weeks • >12 weeks - ≤ 26 weeks • > 26 weeks - ≤ 39 weeks • > 39 weeks - ≤ 52 weeks • > 52 weeks.
3	KPI Rationale	The purpose of this metric is to monitor ophthalmology waiting lists and reduce wait times for patients.
3a	Indicator Classification	Access and Integration
4	National Target	NSP 2025 National Target - 35%
4a	Target Trajectory	(HSE Dublin & Midlands) 35%, (HSE Dublin & North East) 35%, (HSE Dublin & South East) 35%, (HSE Mid West) 35%, (HSE South West) 35%, (HSE West & North West) 35%
4b	Volume Metrics	N/A
5	KPI Calculation	Count the total number of ophthalmology patients in all age bands* on the treatment waiting list at the end of the reporting period by wait time 0 - ≤ 12 weeks and express it as a proportion of the total number of ophthalmology patients in all age bands* on the treatment waiting list at the end of the reporting period by wait times 0 - ≤ 12 weeks + >12 weeks - ≤ 26 weeks + >26 weeks - ≤ 39 weeks + >39 weeks - ≤ 52 weeks + >52 weeks and multiply by 100. Numerator: The number of ophthalmology patients (all ages) waiting to be seen by wait time 0 - ≤ 12 weeks. Denominator: The number of ophthalmology patients (all ages) waiting to be seen by wait times 0 - ≤ 12 weeks + > 12 weeks - ≤ 26 weeks + > 26 weeks - ≤ 39 weeks + > 39 weeks - ≤ 52 weeks + > 52 weeks x 100.

Oral Health Primary Dental Care

1	KPI Title	PC32 - Number of new Oral Health Patients in targeted groups attending for scheduled assessment
1a	KPI Short Title	
2	KPI Description	This is a count of the number of new Oral health patients in target groups attending dental services for scheduled assessment during the reporting period. A 'new patient' is defined as any patient who is being seen for the first time in any particular course of treatment and therefore does not have an existing treatment plan. Patients may be children (defined as aged < 16 years) and adults defined as aged 16 years and >. 'Course of treatment' in this instance may refer to an examination only and does not imply that any active treatment is required. It should be noted that where any existing course of treatment exceeds 12 months in length it must be considered to have expired / been completed and the patient should be (re)assessed as a 'new patient'. A target group in this context refers to children under 16 and patients over 16 are returned separately. Children are further subdivided according to their age group/target class to which they belong as follows- (6-8 years/ first or second class, 9-10 years/ third or fourth class, 11-13 years/ fifth or sixth class). Any other patient less than 16 years. 'scheduled assessment' is any assessment or examination of a patient which has been organised in a planned way such as for children in targeted school classes or patients accessed in a planned manner through any special needs centre / unit etc. In essence, any assessment which is not unscheduled falls into this category. The term 'assessment' should be considered as encompassing any screening, inspection or examination with the person being counted and returned once even if the service arrangements include a two (or more)-stage process such as screening or inspection in school followed by an examination in the dental surgery. It is noted that whether it is one, two or three targeted classes is resource dependant and varies within and between Health Regions.
3	KPI Rationale	This metric counts the number of new Oral health patients in target groups accessing the dental services for scheduled assessment in the reporting period to be monitored. It is noted that whether all or some target groups are accessed is resource dependent and varies within and between Health Regions.
3a	Indicator Classification	Access and Integration
4	National Target	NSP 2025 National Target - 105,000
4a	Target Trajectory	(HSE Dublin & Midlands) 18,985, (HSE Dublin & North East) 27,409, (HSE Dublin & South East) 18,380, (HSE Mid West) 6,178, (HSE South West) 16,583, (HSE West & North West) 17,465
4b	Volume Metrics	N/A
5	KPI Calculation	Count the total number of new Oral Health patients that had a scheduled assessment during the reporting period. includes all children in 'target classes', any other patients seen aged less than 16 years of age or aged 16 years and over.
6	Data Source	Dental records, Principal Dental Surgeon, Regional Executive Officer to the National Business Information Unit (NBIU). The NBIU liaises with the National Oral Health Lead for validation purposes as necessary.
6a	Data Sign Off	Health Region
6b	Data Quality Issues	N/A
7	Data Collection Frequency	Monthly
8	Tracer Conditions	New Oral health patients attending for scheduled care
9	Minimum Data Set MDS	New Oral health patients attending for scheduled care
10	International Comparison	No
11	KPI Monitoring	Monthly
12	KPI Reporting Frequency	Monthly
13	KPI Report Period	Monthly current (e.g. monthly data reported by the 10th of the following month)
14	KPI Reporting Aggregation	National / Health Region / Integrated Healthcare Area / LHO
15	KPI is reported in which reports?	Management Data Report / Annual Report
16	Web link to data	http://www.hse.ie/eng/services/publications/
17	Additional Information	N/A
18	KPI owner/lead for implementation	Anne O'Neill, Assistant National Director Oral Health Lead

Orthodontics		
1	KPI Title	PC24 - % of Orthodontic Patients seen for assessment within 6 months
1a	KPI Short Title	N/A
2	KPI Description	This is a calculation of the number of orthodontic patients (orthodontic referrals) seen for assessment within six months of referral expressed as a proportion of the overall number of orthodontic patients (orthodontic referrals) seen for assessment in the reporting period, multiplied by 100.
3	KPI Rationale	To monitor and reduce the length of time orthodontic patients wait for an assessment following referral.
3a	Indicator Classification	Access and Integration
4	National Target	NSP 2025 National Target - 50%
4a	Target Trajectory	(HSE Dublin & Midlands) 50%, (HSE Dublin & North East) 50%, (HSE Dublin & South East) 50%, (HSE Mid West) 50%, (HSE South West) 50%, (HSE West & North West) 50%
4b	Volume Metrics	N/A
5	KPI Calculation	Count the number of orthodontic patients (orthodontic referrals) seen for assessment within six months ($0 \leq 6$ months) of referral. Calculate the percentage by dividing this count by the total number of orthodontic patients seen for assessment in the reporting period and multiply by 100. Numerator: The number of orthodontic patients assessed within 6 months of referral during the reporting period. Denominator: Total number of orthodontic patients assessed within the reporting period x 100.
6	Data Source	Data is submitted by the Orthodontic Services to the National Business Information Unit (NBIU). The NBIU liaises with the National Oral Health Lead for validation purposes as necessary.
6a	Data Sign Off	Health Region
6b	Data Quality Issues	No
7	Data Collection Frequency	Quarterly
8	Tracer Conditions	Orthodontic Patients seen for assessment during the reporting period including those seen within six months of referral.
9	Minimum Data Set MDS	Orthodontic patients seen for assessment during the reporting period including those seen within six months of referral.
10	International Comparison	No
11	KPI Monitoring	Quarterly
12	KPI Reporting Frequency	Quarterly
13	KPI Report Period	Quarterly current (data reported by the 10th of the month following the quarter)
14	KPI Reporting Aggregation	National / Health Region/ Regional - former HSE Region
15	KPI is reported in which reports?	Management Data Report / Annual Report
16	Web link to data	http://www.hse.ie/eng/services/publications/
17	Additional Information	N/A
18	KPI owner/lead for implementation	Anne O'Neill, Assistant National Director Oral Health Lead

20	ND/AND	David Walsh, Access and Integration, National Director - Access and Integration, Health Service Executive

Orthodontics		
1	KPI Title	PC31A - % of orthodontic patients (grades 4 and 5) on the treatment waiting list longer than 4 years
1a	KPI Short Title	N/A
2	KPI Description	This is a calculation of the number of orthodontic patients (grades 4 and 5) on the treatment waiting list waiting longer than 4 years for treatment expressed as a proportion of the overall number of orthodontic patients (grades 4 and 5) on the treatment waiting list at the end of the reporting period, multiplied by 100. The Modified Index of Treatment Need is used by the Orthodontic Services to establish cases that are eligible to receive treatment by the HSE Orthodontic Services. Grade 4 patients have severe degrees of irregularity that require treatment for health reasons, traumatic bites or functional problems. Patients waiting for growth to be completed are included. Grade 5 patients have very severe dental health problems, e.g. cleft lip & palate, upper front teeth that protrude more than 9mm, teeth cannot come into the mouth because of overcrowding, additional incisors or canines or any other cause. Patients waiting for growth to be completed are included. *Wait time is recorded as waiting: i) 1-6 months ii) 7-12 months iii) 13-24 months iv) 25-36 months v) 37-48 months vi) over 4 years (>48 months).
3	KPI Rationale	To monitor the number of orthodontic patients on the treatment waiting list and reduce the number waiting longer than four years for orthodontic treatment.
3a	Indicator Classification	Access and Integration
4	National Target	NSP 2025 National Target - <6%
4a	Target Trajectory	(HSE Dublin & Midlands) <6%, (HSE Dublin & North East) <6%, (HSE Dublin & South East) <6% (HSE Mid West) <6%, (HSE South West) <6%, (HSE West & North West) <6%
4b	Volume Metrics	N/A
5	KPI Calculation	Calculate the percentage of orthodontic patients (grades 4 and 5) on the treatment waiting list that are waiting longer than 4 years by dividing the number of orthodontic patients (grades 4 and 5) on the treatment waiting list waiting longer than 4 years (> 48 months) by the total number of orthodontic patients (grades 4 and 5) waiting at the end of the reporting period and multiplying by 100. Numerator: No. of orthodontic patients (grades 4 and 5) on the treatment waiting list waiting longer than four years (>48 months) at the end of the reporting period. Denominator: Total number of orthodontic patients (grades 4 and 5) on the treatment waiting list at the end of the reporting period x 100.
6	Data Source	Data is submitted by the Orthodontic Services to the National Business Information Unit (NBIU). The NBIU liaises with the National Oral Health Lead for validation purposes as necessary.
6a	Data Sign Off	Health Region
6b	Data Quality Issues	No
7	Data Collection Frequency	Quarterly
8	Tracer Conditions	Number of orthodontic patients (grades 4 and 5) on the treatment waiting list including those waiting over four years (> 48 months)
9	Minimum Data Set MDS	Number of orthodontic patients (grades 4 and 5) on the treatment waiting list including those waiting over four years (> 48 months)
10	International Comparison	No
11	KPI Monitoring	Quarterly
12	KPI Reporting Frequency	Quarterly
13	KPI Report Period	Quarterly current (data reported by the 10th of the month following the quarter)
14	KPI Reporting Aggregation	National / Health Region/ Regional - former HSE Region

Physiotherapy

1	KPI Title	PC125 - No. of Physiotherapy Patients Seen
1a	KPI Short Title	N/A
2	KPI Description	This is a composite metric. It is the sum of the number of new physiotherapy patients seen for a first time assessment face to face and by telephone, video and audio conferencing in the reporting period and the number of physiotherapy patients treated (who had an intervention) in a face to face manner i.e. in person ('hands on') and by telephone, video and audio conferencing in the reporting period. New patients seen for a first time assessment include patients not previously known to the service and re-referred patients i.e. patients who have previously been discharged and present with an acute or new clinical need. Patients treated include all patients who had an intervention in the reporting period i.e. patients who had treatment / contact in a face to face manner i.e. in person ('hands on') and by telephone, video and audio conferencing in the reporting period on an individual or group basis.
3	KPI Rationale	This metric provides information on physiotherapy service activity and informs decisions in relation to the planning and management of staff and resource allocation.
3a	Indicator Classification	Access and Integration
4	National Target	NSP 2025 National Target - 587,604
4a	Target Trajectory	(HSE Dublin & Midlands) 110,256, (HSE Dublin & North East) 115,116, (HSE Dublin & South East) 120,096, (HSE Mid West) 39,024, (HSE South West) 79,308, (HSE West & North West) 123,804
4b	Volume Metrics	N/A
5	KPI Calculation	Count the number of physiotherapy patients seen face to face and by telephone, video or audio conferencing for a first time assessment in the reporting month and add it to the number of physiotherapy patients who had an intervention i.e. patients who had treatment / contact in a face to face manner i.e. in person ('hands on') and by telephone, video or audio conferencing in the reporting month on an individual or group basis.
6	Data Source	Physiotherapist records, Physiotherapy Manager, Health and Social Care Manager, Regional Director of Planning and Performance, IHA Manager, Regional Executive Officer to the National Business Information Unit (NBIU) Community Healthcare Team
6a	Data Sign Off	Health Region

Podiatry		
1	KPI Title	PC127 - No. of Podiatry Patients Seen
1a	KPI Short Title	N/A
2	KPI Description	This is a composite metric. It is the sum of the number of existing podiatry patients seen face to face, by telephone, video and audio conferencing in the reporting month and the number of new podiatry patients seen face to face, by telephone, video audio conferencing in the reporting month. An existing patient is defined as a patient who is currently attending the service and is an open case. It includes patients who attend individual appointments or group sessions. A new patient is a patient that is seen for the first time in this episode of care. It includes patients re-referred to the service. Each patient is only included once in the count in the reporting period i.e. he / she is counted either as an existing patient or a new patient in the reporting month, not as both.
3	KPI Rationale	This metric provides information on podiatry service activity and informs decisions in relation to the planning and management of staff and resource allocation.
3a	Indicator Classification	Access and Integration
4	National Target	NSP 2025 National Target - 85,866
4a	Target Trajectory	(HSE Dublin & Midlands) 4,282 (HSE Dublin & North East) 12,565, (HSE Dublin & South East) 3,564 (HSE Mid West) 7,848 (HSE South West) 21,287, (HSE West & North West) 36,320
4b	Volume Metrics	N/A
5	KPI Calculation	Count the number of existing podiatry patients seen in the reporting month and add it to the number of new podiatry patients seen in the reporting month. Each patient is only included once in the count in the reporting period i.e. he / she is counted either as an existing patient or a new patient in the reporting month, not as both.
6	Data Source	Patient records, Podiatrists, Podiatry Manager, Health and Social Care Manager, Regional Director of Planning and Performance, IHA Manager, Regional Executive Officer to the National Business Information Unit (NBIU) Community Healthcare Team

Podiatry		
1	KPI Title	PC104G - % of podiatry patients on waiting list for treatment ≤ 52 weeks
1a	KPI Short Title	Access within 52 weeks
2	KPI Description	This is a calculation of the number of new podiatry patients (all age bands*) who are waiting ≤ 52 weeks to be seen by a podiatrist (either in an individual or in a group environment) expressed as a proportion of the overall number of podiatry patients (all wait times**) waiting for these services at the end of the reporting month, multiplied by 100. It includes all patients on the waiting list waiting ≤ 52 weeks at the end of the reporting month. Patients are only removed from the waiting list when they have been seen for a first appointment, it is not sufficient for a patient to have been offered an appointment. Note the focus of this metric is on patients waiting for treatment, within some services assessment and treatment may occur at the same appointment. However, where a patient is assessed and must still wait for treatment it is the waiting time from referral date to treatment date that is reported. Opt in patients are included on the waiting list. If they do not respond within four weeks they are discharged and must be re-referred. This metric should not include patients overdue for review. *Age bands include: • 0 - 4 years • 5 - 17 years • 18 - 64 years • 65 years and over. **Wait times include:• 0 - ≤ 12 weeks • >12 weeks - ≤ 26 weeks • >26 weeks - ≤ 39 weeks • >39 weeks - ≤ 52 weeks • >52 weeks.
3	KPI Rationale	The purpose of this metric is to monitor podiatry waiting lists and reduce wait times for patients.
3a	Indicator Classification	Access and Integration
4	National Target	NSP 2025 National Target - 77%
4a	Target Trajectory	(HSE Dublin & Midlands) 77%, (HSE Dublin & North East) 77%, (HSE Dublin & South East) 77%, (HSE Mid West) 77%, (HSE South West) 77%, (HSE West & North West) 77%
4b	Volume Metrics	N/A
5	KPI Calculation	Count the total number of podiatry patients in all age bands* on the treatment waiting list at the end of the reporting period by wait time 0 - ≤ 12 weeks + >12 weeks - ≤ 26 weeks + >26 weeks - ≤ 39 weeks + >39 weeks - ≤ 52 weeks and express it as a proportion of the total number of podiatry patients in all age bands* on the treatment waiting list at the end of the reporting period by wait times 0 - ≤ 12 weeks + > 12 weeks - ≤ 26 weeks + > 26 weeks - ≤ 39 weeks + > 39 weeks - ≤ 52 weeks + > 52 weeks and multiply by 100. Numerator: The number of podiatry patients (all ages) waiting to be seen by wait times 0 - ≤ 12 weeks + >12 weeks - ≤ 26 weeks + >26 weeks - ≤ 39 weeks + >39 weeks - ≤ 52 weeks. Denominator: The number of podiatry patients (all ages) waiting to be seen by wait times 0 - ≤ 12 weeks + >12 weeks - ≤ 26 weeks + > 26 weeks - ≤ 39 weeks + > 39 weeks - ≤ 52 weeks + > 52 weeks x 100.

Psychology		
1	KPI Title	PC131 - No. of Psychology Patients Seen
1a	KPI Short Title	N/A
2	KPI Description	This is a composite metric. It is the sum of the number of existing psychology patient (client)s seen face to face, by telephone, video and audio conferencing in the reporting month and the number of new psychology patient (client)s seen face to face, by telephone, video and audio conferencing in the reporting month. An existing patient (client) is defined as a patient who is currently attending the service and is an open case. It includes patients (clients) who attend individual appointments or group sessions. A new patient (client) is a patient that is seen for the first time in this episode of care. It includes patients (clients) re-referred to the service. Each patient (client) is only included once in the count in the reporting period i.e. he / she is counted either as an existing patient (client) or a new patient (client) in the reporting month, not as both.
3	KPI Rationale	This metric provides information on psychology service activity and informs decisions in relation to the planning and management of staff and resource allocation.
3a	Indicator Classification	Access and Integration
4	National Target	NSP 2025 National Target - 49,757
4a	Target Trajectory	(HSE Dublin & Midlands) 10,604, (HSE Dublin & North East) 11,913, (HSE Dublin & South East) 10,492, (HSE Mid West) 2,936 (HSE South West) 4,759, (HSE West & North West) 9,053
4b	Volume Metrics	N/A
5	KPI Calculation	Count the number of existing psychology patient (client)s seen and add it to the number of new psychology patient (client)s seen in the reporting month. Each patient (client) is only included once in the count in the reporting period i.e. he / she is counted either as an existing patient (client) or a new patient (client) in the reporting month, not as both.

Speech & Language Therapy		
1	KPI Title	PC126 - No. of Speech & Language Therapy Patients Seen
1a	KPI Short Title	N/A
2	KPI Description	This is a composite metric. It is the sum of the number of existing speech and language therapy (SLT) patients (clients) offered an appointment and seen face to face, by telephone, video and audio conferencing in the reporting month and the number of new SLT patients (clients) seen by telephone, video and audio conferencing for an initial assessment in the reporting month. An existing patient is defined as a client: who has already attended the service and is an open case; who attended for an individual appointment or a group session and for whom there was a client specific face to face, telephone, video or audio conferencing contact in the reporting month, with the parent, carer, educator. A new client seen for initial assessment is a client that is seen face to face for the first time, by telephone, video or audio conferencing for an initial assessment in the reporting month and includes clients referred, re-referred (i.e. previously discharged) and may include clients transferred from another SLT service, geographic area or team. Each patient (client) is only included once in the count in the reporting period i.e. he / she is counted either as an existing patient (client) or a new patient (client) seen for initial assessment in the reporting month, not as both.
3	KPI Rationale	This metric provides information on SLT service activity and informs decisions in relation to the planning and management of staff and resource allocation.
3a	Indicator Classification	Access and Integration
4	National Target	NSP 2025 National Target - 282,312

Speech & Language Therapy

1	KPI Title	PC116B - % of speech and language therapy patients on waiting list for assessment ≤ 52 weeks
1a	KPI Short Title	% on waiting list for assessment ≤52 weeks
2	KPI Description	This is a calculation of the number of speech and language therapy (SLT) patients (clients) (all age bands*) on the waiting list for initial assessment by a speech and language therapist who are waiting ≤ 52 weeks for this assessment expressed as a proportion of the overall number of patients (clients) (all age bands*) waiting (all wait times**) for SLT initial assessment, multiplied by 100. Clients are only removed from the waiting list when they have been seen for a first appointment. It is not sufficient for a client to have been offered an appointment date. *Age bands include: • 0-4 years 11 months • 5 years to 17 years 11 months • 18 years to 64 years 11 months • 65+ years. **Wait Times include: • 0 to 4 months • 4 months & 1 day to 8 months • 8 months & 1 day to 12 months • 12 months & 1 day to 18 months • 18 months & 1 day to 24 months • >24 months.
3	KPI Rationale	This metric allows waiting lists and times for initial SLT assessment to be monitored in order to address waiting times for clients.
3a	Indicator Classification	Access and Integration
4	National Target	NSP 2025 National Target - 100%
4a	Target Trajectory	(HSE Dublin & Midlands) 100%, (HSE Dublin & North East) 100%, (HSE Dublin & South East) 100%, (HSE Mid West) 100%, (HSE South West) 100%, (HSE West & North West) 100%
4b	Volume Metrics	N/A
5	KPI Calculation	Count the number of SLT clients (all age bands*) waiting for initial SLT assessment by wait times: 0-4 months + 4 months & 1 day - 8 months + 8 months & 1 day - 12 months and express it as a proportion of the total number of clients (all age bands*) waiting for initial SLT assessment by wait times: 0-4 months + 4 months & 1 day - 8 months + 8 months & 1 day - 12 months + 12 months & 1 day - 18 months + 18 months & 1 day - 24 months + >24 months and multiply by 100. Numerator: The number of clients (all ages) waiting for initial SLT assessment by wait times 0-4 months + 4 months & 1 day - 8 months + 8 months & 1 day - 12 months. Denominator: The number of clients (all ages) waiting for initial SLT assessment by wait times 0-4 months + 4 months & 1 day - 8 months + 8 months & 1 day - 12 months + 12 months & 1 day - 18 months + 18 months & 1 day - 24 months + >24 months x 100.

Speech & Language Therapy

1	KPI Title	PC117B - % of speech and language therapy patients on waiting list for treatment ≤ 52 weeks
1a	KPI Short Title	N/A
2	KPI Description	This is a calculation of the number of speech and language therapy (SLT) patients (clients) (all ages*) on the waiting list for initial treatment by a speech and language therapist who are waiting ≤ 52 weeks for this treatment expressed as a proportion of the overall number of patients (clients) (all ages*) waiting (all wait times**) for SLT initial treatment, multiplied by 100. Clients are only removed from the treatment waiting list when they have been seen for a first therapy appointment, it is not sufficient for a client to have been offered an appointment. *Age bands include: • 0-4 years 11 months • 5 years to 17 years 11 months • 18 years to 64 years 11 months • 65+years. **Wait Times include: • 0 to 4 months • 4 months & 1 day to 8 months • 8 months & 1 day to 12 months • 12 months & 1 day to 18 months • 18 months & 1 day to 24 months • >24 months.
3	KPI Rationale	This metric allows waiting lists and times for initial treatment to be monitored in order to address waiting times for clients.
3a	Indicator Classification	Access and Integration
4	National Target	NSP 2025 National Target - 100%.
4a	Target Trajectory	(HSE Dublin & Midlands) 100%, (HSE Dublin & North East) 100%, (HSE Dublin & South East) 100%, (HSE Mid West) 100%, (HSE South West) 100%, (HSE West & North West) 100%
4b	Volume Metrics	N/A
5	KPI Calculation	Count the number of clients (all age bands*) waiting for initial SLT treatment by wait time: 0-4months + 4 months & 1 day-8mths + 8 months & 1 day -12months and express it as a proportion of the overall number of clients (all age bands*) waiting for initial SLT treatment by wait times: 0-4 months + 4 months & 1 day-8mths + 8 months & 1 day -12mths + 12 months & 1 day -18mths +18 months & 1 day -24months + >24months and multiply by 100. Numerator: The number of clients (all ages) waiting for initial SLT treatment by wait times 0-4months + 4 months & 1 day-8mths + 8 months & 1 day -12months. Denominator: The total number of clients (all ages) waiting for initial SLT treatment by wait times 0-4 months + 4 months & 1 day-8mths + 8 months & 1 day -12 months+ 12 months & 1 day -18months +18 months & 1 day -24months + >24months x 100.
6	Data Source	Speech & Language Therapy (SLT) records, SLT Manager, Health and Social Care Manager, Regional Director of Planning and Performance, IHA Manager, Regional Executive Officer to the National Business Information Unit (NBIU) Community Healthcare Team
6a	Data Sign Off	Health Region
6b	Data Quality Issues	No
7	Data Collection Frequency	Monthly
8	Tracer Conditions	• Clients on the waiting list for initial SLT treatment • Wait times"
9	Minimum Data Set MDS	• Clients on the waiting list for initial SLT treatment • Wait times"
10	International Comparison	No
11	KPI Monitoring	Monthly
12	KPI Reporting Frequency	Monthly
13	KPI Report Period	Monthly current (data reported by the 10th of the following month)
14	KPI Reporting Aggregation	National / Health Region / Integrated Healthcare Area / LHO
15	KPI is reported in which reports?	Management Data Report / Annual Report
