

Consultant Post Matching Report to 31 December 2020

This data has been extracted from Doctors Integrated Management E-system (DIME) as at 31 December 2020 in relation to Consultant Application Advisory Committee (CAAC) approved posts.

DIME is dependent on clinical sites inputting details on their consultant workforce. Currently there is an estimated 99% compliance rate and therefore there may be variances and gaps in the data supplied to that held within in clinical sites.

As DIME is a live system it must be noted that there can be variances in the figures published dependant on the run date of the report and entries can be made with a retrospective date.

Filled posts are consultant posts which are currently filled regardless of tenure, both permanent and temporary (includes locum and agency staff).

A vacant post: is a consultant post that the hospital has verified on DIME as currently vacant.

Unknown status: the site has not yet assigned a consultant to a post or marked a post as vacant therefore the status of this post is currently unknown in DIME.

It should be noted that all newly created posts recently recommended for approval through CAAC default to 'unmatched' until the clinical site verifies if the post is filled or vacant
