

**Medical Consultant Workforce as at 30 September, 2022**

This data has been extracted from Doctors Integrated Management E-system (DIME) as at 30 September 2022.

DIME is dependent on clinical sites inputting details on their consultant workforce and therefore there may be variances and gaps in the data supplied to that held within clinical sites. As DIME is a live system it must be noted that there can be variances in the figures published dependant on the run date of the report and entries can be made with a retrospective date.

Definition of Status	
<b>Vacant</b>	Recruitment for the post may be underway but the clinical site has verified on DIME that this is currently a vacant post. An appointment may have been made to a number of these vacancies with a prospective start date. It should be noted that there is often a significant period of time between approval of a consultant post through CAAC to the commencement of the recruitment process and ultimately the recruitment of a Consultant to a post. The vacancy figure includes posts that have previously been filled but have become vacant.
<b>Vacant posts with a future start date</b>	Includes a combination of posts that have previously been filled but have become vacant and posts that have never been filled. The clinical site have assigned future start dates to posts.
<b>Unknown Status</b>	The clinical site has not yet assigned a Consultant to the post or marked the post as vacant.
