

**Consultant & NCHD Workforce Interim Report as of 30.06.2025**

The Medical Workforce Analysis Report, published annually by NDTP, gives an overview of the publicly funded medical workforce in Ireland, for the given year, as well as highlighting changes in the workforce over recent years. Link to previous and most recent published reports can be found [HERE](#)

This is an Interim summary report on non-consultant hospital doctors (NCHDs) and consultants, with data being collected from the Doctors Integrated Management E-System (DIME) as of 30 June 2025.

DIME is a live system that is dependent on clinical sites inputting details on their medical workforce and therefore there may be variances and gaps in the data supplied to that held within clinical sites.
