Removal of expired COVID-19 vaccine product

Dear Pharmacist,

In order to keep the vaccine types and batches configured within HSE PharmaVax up to date, vaccine products which are no longer in use are periodically removed. This improves workflow and supports the process of choosing the correct COVID-19 vaccine type when entering vaccine records.

Removal of COVID-19 vaccine types

The following COVID-19 product is no longer in use and will be removed from HSE PharmaVax effective from **12th March 2024**;

- Spikevax bivalent Original/Omicron BA.4-5 (COVID-19 Vaccine)

Any outstanding vaccine records and claims relating to the above product must be entered by **5pm on 11th March 2024** as it will not be possible to submit after this date.

We would once again like to thank you for your continued support in the delivery of the COVID-19 vaccination programme.

Yours sincerely,

Geraldine Crowley
Assistant National Director
