HSE – Primary Care Reimbursement Service

The HSE's Primary Care Eligibility & Reimbursement Service (PCRS) supports the delivery of a wide range of primary care services to the general public through over 6,500 primary care contractors (i.e. doctors, dentists, pharmacists, optometrists, etc.) across a range of community health schemes. These schemes form the infrastructure through which the Irish health system delivers a significant proportion of primary care to the public.

PCRS has a budget in excess of €3.7bn which supports the delivery of a wide range of primary care services to 3.4m persons through more than 6,500 primary care contractors across a range of 'demand led' national health schemes and arrangements.

The PCRS National Medical Card Unit (NMCU) has responsibility for all aspects of the medical card application process. Through its eligibility functions it is now responsible for determining and managing the eligibility of members of the public for Medical Cards, GP visit cards, Drugs Payment Scheme Cards and Long Term Illness Scheme cards, which provide entitlements to free or subsidised primary care services.

The PCRS is responsible, through its reimbursement activities, for making payments to primary care contractors for the services provided, according to the rules of the relevant schemes. PCRS also reimburse and makes payments to suppliers and pharmaceutical companies under the terms of other schemes such as the High Tech Arrangement.

In addition to the processing and making of payments on a national basis to key service providers and recipients, PCRS also compiles statistics and trend analyses which are provided to other areas within the HSE, Government Departments and other interested parties.

PCRS provides additional services to the wider health service through the functions of the Corporate Pharmaceutical Unit (CPU), which is responsible for drug pricing, and through other activities such as PCRS's collaborative support to the Medicine Management Programme (MMP).

Eligibility under General Medical Services Scheme (GMS Scheme)

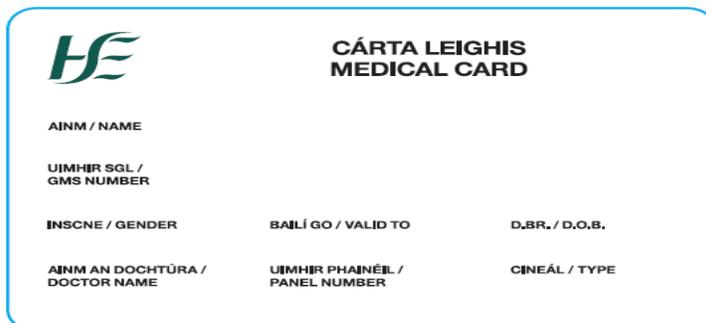

2.1 Who is entitled to a Medical Card?

Entitlement to a medical card is governed by legislation as provided for under Section 45 of the Health Act, 1970.

There are three main categories of people entitled to a Medical Card:

1. Applicants (and their dependants) whose assessable income comes within the relevant Income Guidelines.
2. Applicants (and their dependants) whose assessable income is in excess of the Income guidelines but where the HSE considers that to refuse a medical card would cause undue hardship.
3. The following applicants are exempt from a means test:-
 - a. Persons with EU entitlement.
 - b. Persons with retention entitlement under Government Schemes
 - c. Persons affected by the drug Thalidomide
 - d. Persons affected by Symphysiotomy
 - e. Persons under the Redress for Women Resident in Certain Institutions Act, 2015'

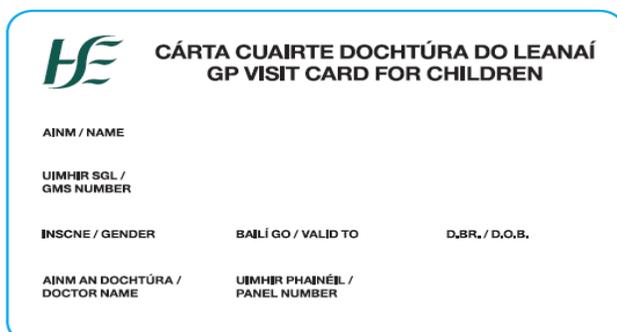

Once eligibility is confirmed, patients are entitled to receive certain Doctor, Dentist, Clinical Dental Technicians (CDT's), Optometrists or Ophthalmologists treatments/services and prescribed medicines from Pharmacists as set out under each scheme.

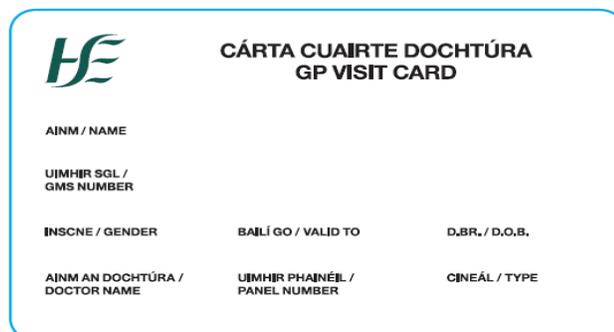

The diagram shows a rectangular card with a blue border. At the top left is the HSE logo. To its right, the text 'CÁRTA LEIGHIS MEDICAL CARD' is centered. Below the logo, the text 'AINM / NAME' is on the left. Below that, 'UIMHIR SGL / GMS NUMBER' is on the left. Below that, 'INSCNE / GENDER' is on the left, 'BAILÍ GO / VALID TO' is in the center, and 'D.BR. / D.O.B.' is on the right. At the bottom, 'AINM AN DOCHTÚRA / DOCTOR NAME' is on the left, 'UIMHIR PHAINÉIL / PANEL NUMBER' is in the center, and 'CINEÁL / TYPE' is on the right.

GP (General Practitioner) Visit Card

A person issued with a GP Visit Card registers with the doctor of their choice and is entitled to receive free doctor treatment. They are **not** entitled to treatment free of charge by a Dentist/Clinical Dental Technician/Optometrist or Ophthalmologist or prescribed medicines and appliances.

The diagram shows a rectangular card with a blue border. At the top left is the HSE logo. To its right, the text 'CÁRTA CUIARTE DOCHTÚRA DO LEANAÍ GP VISIT CARD FOR CHILDREN' is centered. Below the logo, the text 'AINM / NAME' is on the left. Below that, 'UIMHIR SGL / GMS NUMBER' is on the left. Below that, 'INSCNE / GENDER' is on the left, 'BAILÍ GO / VALID TO' is in the center, and 'D.BR. / D.O.B.' is on the right. At the bottom, 'AINM AN DOCHTÚRA / DOCTOR NAME' is on the left, 'UIMHIR PHAINÉIL / PANEL NUMBER' is in the center, and 'CINEÁL / TYPE' is on the right.

European Economic Area (EEA) entitlements

European Regulation 883/04 gives entitlement to citizens of the European Union (EU) and of the European Economic Area (EEA) to health entitlement when they move to another EU/EEA state, either on a permanent basis, such as for retirement or on a temporary basis, such as a holiday or seeking employment.

It should be noted that the eligibility of such persons is based on their linkage to the Social Security System of another EU/EEA State and not on their Nationality.

For persons moving on a permanent basis the linkage is established by the production of the relevant E Form, e.g. E106, E109, E 121 or S form.

Such persons who are moving to Ireland on a permanent/long term basis should be advised to apply for a medical card under EU Regulations.

For a person who is just visiting on a temporary basis such as a holiday the linkage is established by the production of a European Health Insurance Card (EHIC) or a Temporary Replacement Certificate (TRC)

It should be noted that there is an agreement between Ireland and the UK which does not require the use of an EHIC or the production on an E Form. These are referred to later on in this section.

EEA persons presenting for Dental treatment should in the first instance be referred to a Health Service Executive Dental Clinic. The Health Service Executive may in certain circumstances make special arrangements for private practitioners to provide treatment to such persons but the resulting claim must be made directly to the Health Service Executive Local Office concerned.

European Health Insurance Card (EHIC) Entitlements

Such persons, who are visiting Ireland on a temporary basis, e.g., for holiday purposes, are entitled to receive, without charge, the necessary medical care, including such approved medication which a Doctor may prescribe, which would allow them to remain in Ireland in line with their original planned schedule.

As indicated above the normal method by which a person provides evidence of eligibility under these arrangements is by producing a current European Health Insurance Card, EHIC, or a current Temporary Replacement Certificate, TRC, issued by their Competent State.

Those persons presenting for Dental treatment with an EHI Card should in the first instance be referred to a Health Service Executive Dental Clinic. The Health Service Executive may in certain circumstances make special arrangements for private practitioners to provide treatment to such persons but the resulting claim must be made directly to the Health Service Executive Local Office concerned. A list of HSE local health offices is available at <http://www.hse.ie/eng/services/list/1/LHO/>.

Please note a European Health Insurance Card only provides entitlement to services when the holder of the card is travelling within the EU/EEA and outside of their own State. These arrangements do not cover persons who come to the country specifically for the purpose of obtaining medical treatment.

Reciprocal Arrangements with the UK

There is no change to the existing arrangements between Ireland and the UK, and residents of either Country travelling to the other on a temporary stay are not required to present a European Health Insurance Card or an equivalent paper form. Proof of residency is sufficient.

A resident of the UK must produce documentary evidence of such residence. Patients claiming UK residency can establish eligibility for free Doctor services under the GMS Scheme by producing documentary evidence of their entitlement to services in the UK in the form of a UK Medical Card, Social Security Payment from the UK or other link to the Social Security system. Should such proof not be readily available and where a Doctor has sight of a current passport or similar documents, which would establish bona fide residence in the UK, such documents may be accepted as evidence of eligibility.

If the doctor has reason to believe that the person, while in possession of such documentation is, in fact, ordinarily resident in the State, the person should be asked to have his/her eligibility confirmed by the National Medical Card Unit Lo Call Number 0818 224478

Health (Amendment) Act, 1996

The Government has provided in the Health (Amendment) Act, 1996 for the making available without charge of certain health services to certain persons who have contracted Hepatitis C directly or indirectly from the use of Human Immunoglobulin-Anti-D or the receipt within the State of another blood product or blood transfusion.

Eligible persons will receive a Health (Amendment) Act 1996 Services Card from the Hepatitis C Liaison Officer in their HSE area. This card is personal to the holder and is valid for his/her lifetime.

Eligible adults will be required to present the Services Card to a dental practitioner when they wish to avail of services under the Act. Eligible adults requiring Prophylaxis, subsequent routine treatments and Below the Line treatment must be approved by the Health Service Executive Principal Dental Surgeon as provided for under the Dental Treatment Services Scheme (DTSS).

Claims for payment of fees in respect of services provided to eligible adults should be submitted to the PCRS in the usual manner. The patient's Services Card number should appear in the panel set aside for the medical card number on the appropriate claim form.

Client Eligibility Confirmation

Each eligible person is provided with an individual GMS card, which has a 'valid to' date thereon. After this date the card cannot be used to claim entitlement to certain services

Each time a G.M.S. cardholder attends for dental treatment under the D.T.S.S. they should present with their current medical card. The claiming contractor should satisfy themselves of the patient's eligibility.

Under the DTSS, GMS eligible adults (aged sixteen and over on the commencement date of treatment) who attend Contracting Dentists have access to a range of dental treatments and clinical procedures.

In the case of eligible adults attending Clinical Dental Technicians, the term "eligible person", relates to persons with a valid GMS card aged eighteen years or over on the commencement date of treatment.

To assist contractors a specific tool to verify a client's eligibility prior to providing services has been developed.

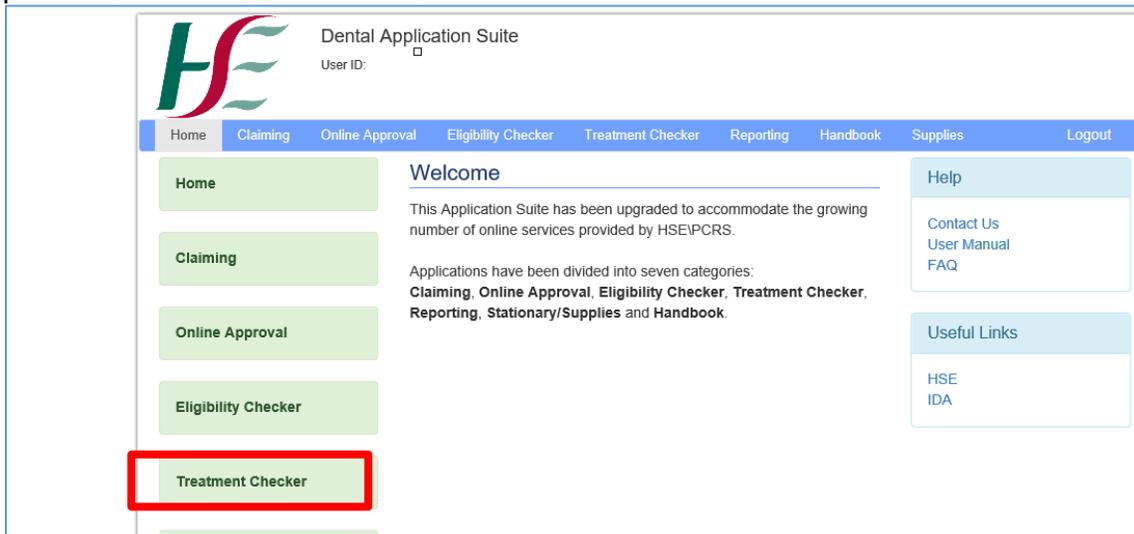

Client's eligibility and treatment eligibility should always be checked before treatment commences.

The facility is available under the 'PCRS Online Services' link at www.pcrs.ie, under the heading 'Online Eligibility Confirmation'.

DTSS Treatment Eligibility

In addition to validating a patient's medical card, contractors should satisfy themselves on each occasion whether patients are entitled to receive specific treatment items.

There is a facility what will allow you to check the treatment entitlement of a Medical Card patient. Click on the Treatment Checker below to access this screen:

You can then check a patient's entitlement by selecting the relevant treatment and entering in the PPS number or the medical card number of the medical card patient:

To use the tool:

1. Select the treatment type (treatments in the online eligibility checker include: A1, A2, A3, A4, A5, A7, B1, B2, B3, B5)
2. Enter tooth number (required for tooth specific treatments only)
3. Enter patient's PPS number or medical card number
4. Click the "Check" option.

Check Dental Eligibility

Enter the treatment

Dental Treatment Services Scheme (DTSS)

Under the DTSS, GMS eligible adults (aged sixteen and over) have access to a range of dental treatments and clinical procedures.

The HSE has prioritised the range of treatments to ensure access to emergency dental care for eligible patients. Additional care is considered in exceptional or high risk cases.

Patients falling within the category of exceptional/high-risk cases may be eligible for a more extensive range of treatments, where approved as clinically necessary by a Principal Dental Surgeon (PDS).

The list of exceptional/high-risk cases is non-exhaustive but is intended to include such cases as (a) individuals whose general health would be seriously compromised if they did not have access to essential dental treatment, (b) individuals with a disability (such as special needs patients), (c) Hepatitis C patients (with an R card), (d) haemophiliacs or (e) patients suffering from oral cancer.

The term 'High Risk' refers to patients for whom untreated dental disease, or the treatment of dental disease, poses significant health problems. 'Exceptional' refers to those patients who may not strictly be classified as high risk, but for whom there is sufficient information available to the PDS as to justify a decision to approve funding for additional care.

A list of the types of health conditions which are deemed to be high risk is contained in the table below.

Types of Conditions	Examples
Complex cardiac conditions	Prosthetic Valve Previous Endocarditis Transplants with Valvulopathy Certain congenital defects (CHD's)
Bleeding Disorders including Haemophilia	Patients taking Warfarin or similar medication
Cancer Patients	Those under active treatment by chemotherapy or radiotherapy or under medication prescribed by an oncologist.
Bisphosphonates	Person receiving or due to start intravenous bisphosphonates
Neurological Disorders	Multiple Sclerosis, Parkinson's Disease Dementia, Acquired Brain Injury, Epilepsy, Cerebral Palsy
Immuno-suppressed	Organ transplant recipients HIV Hepatitis C Persons with a valid HAA card
Pre-operative	Hip/joint replacement and cardiac surgery
Diabetes	Type I (insulin-dependent) Type II (non-insulin dependant
Genetic/Congenital	Downs Syndrome

	Cystic Fibrosis Malignant Hyperthermia
Intellectual Disability	Persons in receipt of care or services for intellectual disability Persons on a register of disability Sensory Disability Persons in receipt of care or services for disability
Dental Vulnerability	Cleft Palate Sjogren's Syndrome
Long stay residents of Nursing Homes	
Persons on a Methadone Therapy Programme	
Social Vulnerability	Homelessness Being in the care of the HSE Ward of Court Foster Care Children in Foster Care (age 16 to 18)
Mental Health	A person receiving treatment for persistent serious mental health issues

Where a PDS approves treatment in an exceptional/high risk case, the PDS will clearly indicate in the 'For Official Use Only' box the number of approved Above the Line and/or Below the Line treatments. The PDS will then return the form to the contractor who will commence treatment.

Dentists may prescribe to eligible persons a range of medicines from the list of 'Dental Prescribable Items'. The 'Dental Prescribable Items' list is updated periodically and available on the list of Reimbursable Items link. Go to www.pcrs.ie and click on PCRS Online Services on the menu or use the url below:

<https://www.hse.ie/eng/staff/pcrs/online-services/>

Dentists prescribe for GMS persons on specially designed prescription forms. The DTSS prescription form is a three part claim which contains the original patient copy, the pharmacy copy and a third copy which should be retained by the contracting dentist for audit purposes.

Administrative Arrangements

5.1 Completion of Form D

General

Form D is printed on self-imaging paper. A duplicate copy is provided which has 'Copy' ghosted diagonally across it. Dentist Copies or photocopies should not be submitted as a claim form. Dentist Copies should be retained for your own records for a period of six years.

A specific '€' column has been provided to assist you in maintaining your records. This column is solely for Dentists use and will not cause a claim to reject for payment if left blank. Irrespective of the amount that may be entered, claims will be processed and paid at the appropriate rates.

D Form

In all circumstances details entered must be legible so as to ensure prompt payment. The following step by step process should be adhered to when completing a claim form:

1. Form number: The form number is prepopulated on form. In the case of self-print forms, the form number should contain the relevant contractor's panel number less the first digit.
2. Patient's Name, Contact Number, Card Number and PPSN
 - a. Patient's Name should be entered in the space provided on form. It is important to satisfy yourself that the patient presenting for treatment corresponds with the details displayed on their medical card.
 - b. Contact Number – Enter patient's contact number.
 - c. Patient's medical card number should be entered in the space provided on form. Verification of patient eligibility for service via online facility which is available at www.pcrs.ie should be carried out. Only claims in respect of treatments provided to eligible GMS patients should be submitted for processing.
 - d. PPS Number – Insert patient's personal public service number.
3. Contractor Name & Panel Number - Insert clearly contractor name and panel number. The Panel Number must be valid on the commencement of treatment
4. Declaration by Patient
 - a. Commencement Date – Insert the start date of treatment. The cardholder must have a valid card on the commencement date.
 - b. Completion Date – Ensure this date is populated when treatment has been completed and prior to submitting for payment.
 - c. Patient's Signature – Patient must sign after treatment has been completed. Under no circumstances should the patient sign the form prior to completion of treatment. In exceptional circumstances, an appropriate third party may sign on behalf of the patient, but should include an explanatory note confirming the relationship to the patient and confirming the inability of the patient to sign the form. Where the above procedure is not applied, the claim will be rejected for payment.
 - d. Under no circumstances should a Dentist or member of staff sign on behalf of the patient.

5. Declaration by Contractor
 - a. Dentist must sign after treatment has been completed.

It is expected patients will complete all stages of the DTSS treatment plan. In circumstances where a patient fails to return for the completion of treatment, every effort must be made to contact the patient to request them to complete the treatment or to sign the patient declaration. Should a patient fail to sign the patient declaration field, failed to attend (F.T.A.) should be entered. These claims will then require local PDS approval prior to submission of claim for payment.

As a fundamental part of its control system, the HSE does not accept facsimiles of claims or signatures, nor can it accept anything other than the individual contractor's statement regarding clinical necessity. Where Tip Ex is used on a form, the form will be rejected.

To reduce the number of rejected claims and ensure payments are processed as quickly as possible for contractors, we recommend use of the Eligibility Checker link on the Dental Application Suite menu.

5.2 Claim Submission

Under the terms of the DTS Scheme contract, completed claims should be presented for processing within one month after completion of treatment. All claims which are received on or before the 20th of the month will be processed for payment on the 2nd Thursday of the following month. If the 20th of the month falls on a weekend/bank holiday the deadline will extend until close of business the next working day.

Taking cognisance of the Christmas and New Year period, the deadline for claims submission is earlier in December of each year. Correspondence will issue to all active contractors closer to the time.

Only one bundle of claims per month should be submitted for processing and should be appropriately tagged and accompanied by a properly completed summary of claims certificate. Submitting multiple bundles throughout the month may result in delays to your payment.

Summary of Claims Certificates and Pre-addressed stickers are available by calling the Dental Unit on 01 864 1996.

D forms are supplied by your Local Health Office. A list of local health offices can be found on the HSE website at <http://www.hse.ie/eng/services/list/1/LHO/>

D forms can also be ordered through the Dental Online Application Suite by clicking on the Supplies option in the Main Menu

Claims should be forwarded to the Primary Care Reimbursement Service, P.O. Box 4563, Finglas, Dublin 11, D11 PXT0. Please note this is not a free post service.

5.3 Self-Print

Forms may be submitted under the DTSS using the pre-printed D Form. Please note however there are procedures which must be adhered to in relation to this functionality.

- You must print 2 exact copies only of each claim i.e. generate a top copy and a second copy for your own records.
- The top copy should be submitted for payment, the second bottom copy should be retained securely for a period of no less than six years.
- Only the original second copy may be used for submission of reclaims and/or subsequent queries. This copy must also have all relevant patient, contractor and PDS signatures thereon.
- Please ensure to submit reclaims under separate cover to your claim forms. These claims should be clearly identified as reclaims.
- In respect of Below-the-Line treatments 2 exact copies of the form per claim must be submitted to the PDS in the Medical Card patient's Local HSE Office for approval.
- The PDS must sign and stamp both copies, again ensuring both copies are identical, before returning same forms to you as claiming dentist.
- Details must be identical on both forms including the form number. Note: the form number generated must be unique. Claims which are submitted for the same patient on a different occasion using the same form number will not be processed for payment.
- The form number should contain the relevant contractor's panel number less the first digit. E.g. Panel number 99999, the form number should be 9999001 etc.

Self-print forms must be an exact reflection of the existing paper forms currently in use under the DTSS. Failure to comply with the above procedures may result in a delay in processing your claim forms for payment.

Where the HSE find continual non-adherence with the above, it reserves the right to remove this option of claim submission from the contractor.

Prior to submitting claims using this format, the claiming contractor must sign a Self-Print Agreement, which is available by contacting the Dental Unit directly on 01 864 1996 or via email on dtss.queries@hse.ie.

Above the Line Treatments

All Above the Line Treatments requiring approval must be submitted to the PDS of the claiming dental practitioner

With the introduction of Online Approvals the DTSS dentist will be linked to the PDS in the area where their practice is located. Going forward all approval requests, regardless of where the patient originates from, should be sent to the PDS where you are located.

A1 - Dental Examination

A complete oral examination of hard and soft tissue, medical and dental history, recording of missing teeth, diagnosis and treatment plan is mandatory on each claim form.

A fee for an Oral Examination is payable once within a calendar year (January – December).

This examination includes necessary intra- and extra-oral radiographs and other supporting diagnostics; risk factor/health determinants (covering tobacco, alcohol, and diet) assessment, advice and action including referrals and intervention; recording of caries and periodontal disease; dental enamel defects; trauma; hard and soft tissues including for oral cancer. Diagnosis and treatment plan is mandatory on each claim form.

Failure to complete the Oral Examination will result in the claim being rejected for payment.

The result of an Oral Examination should be recorded using the following codes to indicate the status of each tooth:

0 (alpha code) = Decayed

- (hyphen) = Missing

F (alpha code) = Filled

When a code is not inserted against a tooth the status will be recorded as sound.

A1		Oral / Soft Tissue Examination <small>(including any necessary radiographs)</small>								Yes	No
1	8 7 6 5 4 3 2 1	1	2	3	4	5	6	7	8	2	
4	8 7 6 5 4 3 2 1	1	2	3	4	5	6	7	8	3	
CODES: 0 - Decayed		F - Filled		— Missing							

A1 claims in respect of the same patient may be audited against other schemes.

A2 - Prophylaxis

Scaling and treatment of mild gum conditions, including any necessary oral hygiene instruction. This will include the removal of deposits on teeth, polishing of teeth, re- contouring of fillings and treatment of mild gum conditions (this includes the treatment of gingivitis where pocketing does not exceed 3.5mm).

From May 1st 2022, Prophylaxis treatment (Item A2) will be reintroduced for all eligible patients without the need for prior approval once per calendar year (January to December).

High risk patients can avail of a second A2 treatment after 6 months, but will require prior approval.

Registered diabetic patients with dual eligibility under the Long Term Illness Scheme and GMS Scheme, may receive Prophylaxis treatment without the need to seek prior approval from their local PDS. Confirmation of eligibility for Prophylaxis (A2) treatment is available online via the 'Dental Eligibility Confirmation' link on www.pcrs.ie .

In all cases an A2 cannot be repeated for the same patient, within a 6 month period and cannot be claimed in conjunction with a B3.

The treatment date should not be entered on the claim form when sending for approval.

When forwarding the claim for payment the date which the A2 treatment was carried out and the general gingival status should be entered using the codes below:

- Code '0': Healthy gingival tissues with no bleeding after gentle probing.
Code '1': No pockets of more than 3mm or calculus or defective margins are detected but there is bleeding after gentle probing.
Code '2': No pockets of more than 3mm, but supra or sub gingival calculus or defective margins of a filling or crown are detected.

A2		Prophylaxis	
TX Date:	01	05	22
			CODE: <input type="text"/>
<input type="text"/>	HSE Official's Initials		
			0 - Healthy 1 - Bleeding 2 - Calculus

A2 claims in respect of the same patient may be audited against other schemes.

A3A - Amalgam Restoration/A3C- Composite Restoration

With effect from 1st May 2022, claims for amalgams and composites can be made on posterior teeth. The HSE will reimburse up to and including two (2) restorations per calendar year (from items A3A or A3C) per eligible person, where the contracting dentist is satisfied as to the clinical necessity.

Additional restorations will only be allowed in approved circumstances.

The contractor must provide as much information as possible to the PDS to assist him/her to grant approval.

A restoration may not be repeated on the same tooth within 5 years unless the clinical necessity for such treatment accompanies the claim. No additional treatment may be claimed in respect of the same tooth on the same occasion.

A single generic statement in relation to a clinical necessity is not acceptable. Please ensure sufficient detail is supplied in each individual case stating the clinical reason why the restorations were necessary to be repeated within the specified time frame.

Claims which have a high level of generic clinical notes may be passed to the Dental Inspectorate for review.

An A3 restoration cannot be claimed in conjunction with a B1 treatment.

The tooth/teeth treated must be identified on the chart and the number of fees claimed should be entered in the box provided:

A3 Restorations	
Please enter code: A Amalgam, or C Composite over the restoration site	
CODE A or C	CODE C
1 8 7 6 5 4	3 2 C 1 2 3
4 8 7 6 5 4	3 2 1 1 2 3
No. of Fees	2
<input type="text"/> No. of approved treatments	<input type="text"/> HSE Official's Initials

A4 – Exodontics

Extraction of a Tooth under Local Anaesthetic, including removal of roots, and where necessary, suturing and control of primary bleeding.

The tooth/teeth treated must be identified on the chart and the number of fees claimed should be inserted in the box provided.

A4 Exodontics	
Please enter the codes: A Adult, P Primary and R Root over the extraction site	
1 8 7 6 5 4 A 2 1	1 2 3 4 5 6 7 8 2
4 8 7 6 5 4 3 2 1	1 2 B 4 5 6 7 8 3
No. of Fees	2

When claiming for an Adult, Root or Primary Tooth extraction, please enter the Codes A Adult, R (Root) or P (Primary) over the extraction site.

A5- Surgical Extraction

Removal of tooth or root requiring surgical incision of overlapping soft tissue, elevation of flap and either removal of bone and tooth or sectioning and removal of tooth. Fee to include any necessary radiographs and visit required for post-operative care.

'No treatments including a Root can be claimed on a tooth were an A5 has already been claimed.'

The tooth/teeth treated must be identified on the chart and the number of fees claimed should be inserted in the box provided. When claiming A5 treatment the appropriate number of time units should be entered (normal rounding rules apply). The maximum number of time units per tooth is two.

E.g. Surgical Extraction for tooth number 18 & Root Extraction on tooth 23 – Time duration 60 minutes:

A5 Surgical Extraction	
Please enter the codes: A Adult, P Primary and R Root over the extraction site	
1 A 7 6 5 4 3 2 1	1 2 3 R 5 6 7 8 2
4 8 7 6 5 4 3 2 1	1 2 3 4 5 6 7 8 3
No. of Fees	2
Please Specify No. of 15 minute units	1 (Max 2 per Tooth)

When claiming for an Adult, Root or Primary Tooth extraction, please enter the Codes A Adult, R (Root) or P (Primary) over the extraction site.

A6 - Haemorrhage/Prescription/Dressing

The items payable under this category are:

H (alpha code) = Haemorrhage - refers to the control of bleeding post extraction. This will not be paid if claimed by the same dentist or dental practice where the tooth was extracted.

P (alpha code) = Prescription (From list of 'Dental Prescribable Items')

D (alpha code) = Dressing refers to the placement of a sedative, temporary filling material in a tooth cavity in an emergency situation only.

The above code(s) should be recorded on the tooth chart and payment will be calculated by reference to the number of teeth indicated and the number of fees claimed.

Only one of the same treatment code will be paid on the same claim form.

E.g. Prescription on tooth number 14 and Haemorrhage required for tooth number 46:

A6 Haemorrhage / Prescription / Dressing																	
Please enter code: D Dressing, H Haemorrhage or code P Prescription where DTSS prescribable medicine prescribed																	
Please note: Prescribed drug code must be from DTSS list of prescribable items																	
1	8	7	6	5	4	3	2	1	1	2	3	4	5	6	7	8	2
4	8	7	H	5	4	3	2	1	1	2	3	4	5	6	7	8	3
No. of Fees <input type="text"/>																	

Dentists may prescribe for eligible persons a range of medicines from the list of 'Dental Prescribable Items'. The 'Dental Prescribable Items' list is updated periodically and available on the list of Reimbursable Items link. Go to www.pcrs.ie and click on PCRS Online Services on the menu or use the url below:

<https://www.hse.ie/eng/staff/pcrs/online-services/>

All prescriptions should be correctly completed on an official DTSS prescription form. The third copy must be retained for record purposes.

A7 – 1st Stage Endodontic (Payable on 6 upper and lower anterior teeth only)

- Including where necessary incision draining of abscess, treatment of infection, removal of pulp and root canal contents, preparation and filling of root canals and any necessary radiographs

The HSE will only reimburse one First Stage Endodontic (Item A7), on an anterior tooth per eligible person in a calendar year (January-December), **without prior approval**, where a

patient presents with an abscess or irreversible severe pulpitis on an anterior tooth (canine to canine – maxillary and mandibular).

Additional treatment will be subject to prior approval. A clear treatment plan and prognosis for the remaining maxillary and mandibular teeth must be submitted. This treatment may not be repeated on the same tooth within 2 years unless the clinical necessity for such treatment accompanies the claim.

The tooth/teeth treated must be identified on the chart at the time of claiming and the number of fees claimed should be entered in the box provided.

A7		1st Stage Endodontic Treatment								
1	3	2	1	1	2	3	2	<input type="text" value="1"/>	No. of Fees	
4	X	2	1	1	2	3	3			
<input type="text"/>				No. of approved treatments				<input type="text"/>		HSE Official's Initials

A8 - Denture Repairs.

The DTSS contract allows a fee to be payable for a denture repair in one or more of the following circumstances:

- Cracks, Fissures and Fractures
- Replacement of Band or Wire
- Replacement of Teeth
- Extension of Plate

Reimbursement of item A8 (repairs) is restricted to a maximum of 3 fees per claim. The contractor must keep all laboratory dockets that are applicable to an A8 claim.

The provision of an A8 is not expected to arise within 12 months of any B5 treatment.

A8		Denture Repairs	
	No. of Repairs		No. of Repairs
Cracks, Fissures and Fractures	<input type="text" value="2"/>	Replacement of Teeth	<input type="text"/>
Replacement of Band or Wire	<input type="text"/>	Extension of Plate	<input type="text"/>

Below the Line Treatments

All Below the Line Treatments requiring approval must be submitted to the PDS of the claiming dental practitioner

All Below the Line treatments require prior PDS approval. The Oral Examination (A1) must be completed on the occasion of each claim. When applying for approval the contractor should send the approval to the contractor's Local Health Office. E.g. if the patient attends a dentist in Galway, however the card was originally issued while patient was residing in Cork, the approval should be sent to Galway, as this is the Local Health Office of the dentist who is providing the treatment.

A PDS will consider the application and return the form to the dentist within 30 calendar days. If approved, the contractor may then provide the treatment(s). Currently a review mechanism is under development in conjunction with the National Oral Health Lead whereby a contractor or patient may have a refusal reviewed. Further details will follow in due course.

On completion of treatment the form should be forwarded to the PCRS for processing. The **contracting dentist shall complete the approved treatment within nine months of the approval date, otherwise the treatment will not be paid.** If treatment has not been completed within this time frame the approval is deemed to be withdrawn.

**B1 – 2nd Stage Endodontic Treatment
(6 upper and lower anterior teeth only) Root Canal Therapy**

- Including where necessary incision draining of abscess, treatment of infection, removal of pulp and root canal contents, preparation and filling of root canals and any necessary radiographs.

When submitting your claim the code 'E' should be recorded on the chart. Clinical necessity must be detailed in the clinical necessity box. This treatment may not be repeated on the same tooth within 2 years unless the clinical necessity for such treatment accompanies the approval request, and is accepted."

The fee for a B1 includes any A3 restoration on the same tooth.

B2 Apicectomy/Amputation of roots

- Including retrograde filling and any necessary root canal therapy.

When submitting your claim the code 'A' should be recorded on the chart. Emergency circumstances must be detailed in the clinical necessity box. This treatment may not be repeated on the same tooth within 2 years unless the clinical necessity for such treatment accompanies the approval request, and is accepted."

e.g. 2nd Stage Endodontic Treatment for tooth 13 and Apicectomy of Tooth number 21:

B 1 / B 2 2nd Stage Endo/Apicectomy/Amputation of Roots			
Please enter code: E Endodontic or A Apicectomy on the chart			
1	E	2	1
4	3	2	1
2	No. of approved treatments		<input type="text"/> HSE Official's Initials

B3 Protracted Periodontal Treatment

A B3 can only be approved for patients in the high risk/exceptional group.

This covers the treatment of periodontal conditions where pocket-depths exceed 3.5mm including root planning, gingival curettage, gingival surgery and any other periodontal treatment (including the treatment of acute conditions such as ANUG).

Insert the proposed number of visits required for treatment (maximum of 4 separate visits within 12 month period) when seeking approval from patients local PDS.

A B3 cannot be claimed in conjunction with an A2.

B3	Protracted Periodontal Treatment		
No. of Visits	<input type="text"/>	<input type="text"/>	HSE Official's Initials

B5 Prosthetics

This category incorporates Full Denture (12+ missing teeth) treatment together with Partial Dentures (1-11 missing teeth) and Relines. When applying for B5 approval, as much detail as possible should be provided, to the PDS to support the application. Requests for repeat treatment within 5 years should include satisfactory clinical information in the clinical necessity box.

When forwarding for approval the treatment item required must be identified on the D form. Please note the Oral Examination on the form must be completed in order for PDS to consider the application.

B5 Prosthetics	
Full Denture (12+ Teeth missing)	<input checked="" type="checkbox"/> UPPER <input type="checkbox"/> LOWER
Partial Denture (1-11 Teeth missing)	<input type="checkbox"/> UPPER <input type="checkbox"/> LOWER
Reline	<input type="checkbox"/> UPPER <input type="checkbox"/> LOWER
<input type="text" value="1"/> No. of approved treatments	<input type="text"/> HSE Official's Initials

One reline per denture may be approved in a 5 year period if clinically necessary. Repeat relines will not normally be approved. Relines are specifically for full dentures.

In the specific case of partial dentures approval will be given for

- dentures replacing anterior teeth (incisors & canines);
- dentures replacing more than 4 posterior teeth (premolars and molars) where at least one premolar is being replaced; and
- partial dentures replacing molar teeth only require special justification

The fee for full Upper or Lower Dentures encompasses both the clinical laboratory element of the full Dentures Scheme – separate Laboratory claims are not a feature of the scheme. Each contracting Dentist is responsible for the direct settlement of Laboratory fees.

Full Upper/Full Lower Dentures should be claimed on one claim form.

Claims which reflect the provision of a Full Upper and Full Lower separately, for the same patient, may be passed to the Dental Inspectorate for review.

Detailed Payment Listing

Details of paid claims will be reported on a 'Detailed Payment Listing' sent out shortly after payments are made each month.

Reclaims

Claims that fail to generate for payment because of invalid or insufficient data will report on a reclaim listing. Corrections and amendments should be inserted on the reclaim listing which should then be re-submitted to the PCRS for processing.

Duplicate or new claim forms should not be submitted in order to reclaim unpaid items. The top occurring error messages are detailed below along with clarification on how the issue can be resolved.

Error Message	Method of Resolution (If Any)
Only two restorations are payable per year per patient	PDS letter required to confirm approval of subsequent A3 items.
The tooth has been previously extracted	Contractor should check previous schedules to ensure same tooth not claimed before. If not contact to be made with PDS who will investigate in further detail.
Invalid Card Number	Correct medical card number to be supplied by contractor
Card not eligible on date of this Claim.	Contractor should check if patient had a card which was valid on commencement date of treatment if different card number contractor should supply same.
A1 - Please enter A1 charting.	A1 Full Complete Oral charting to be supplied by contractor.
Dentist and patient declarations must be signed and dated	If dentist failed to sign original claim form, dentist should sign dentist copy to confirm provision of services. If patient failed to sign original claim form, the contractor should make every effort to obtain a patient signature on dentist copy.
There was a name mismatch on Claim	Contractor to confirm correct medical card number of patient who is specified on claim form.
GP Visit Cards not eligible for this scheme	Patient is not covered under DTSS.
Tooth is marked missing on patient`s chart	Confirmation tooth is present is required by contractor.

Dental Online Services

Dental Online Services are now available which enables a DTSS contractor to process claims through our Online Suite. The benefits to Online Services include:

- Earlier Access to Payments
- Reliability of Service
- Online Claim Entry
- Online Claim Review
- Online Approval Requests
- Elimination of Reclaims
- Downloadable and printable itemized listings
- Online Ordering of Stationery

Queries

When submitting written queries regarding payments made or claims submitted, please quote your Panel Number, Claim Number, Form Number and a brief explanation as to the nature of your query. Queries may be submitted via the below methods.

Withholding Tax from Payments for Professional Services

Under the terms of the Finance Act, the Health Service Executive is obliged to deduct Withholding Tax, (currently 20%) from all payments for professional services by contractors under all Schemes.

Each contractor is required under the relevant legislation to furnish the PCRS with his/her income tax reference number on a form provided. The introduction of ePSWT on 1st July 2021 means that the PCRS will make a payment notification online on ROS (in a new ePSWT system) and remit the 20% as part of the F30 monthly return.

With effect from 1st July 2021, PCRS (the Accountable Person) will no longer be providing any paper forms (Form F45) to you as the Specified Person. When you log into your ROS account as a Specified Person you will see a “PSWT Withheld from you” heading on the PSWT page and by clicking same, you can view the Payment Notification details of PSWT submitted on your behalf.

You will also be able to produce a “Payment Notification Acknowledgement” should you require a paper record. Further information is available on <https://www.revenue.ie>. Alternatively, you may seek professional advice from your Accountant/Tax Adviser.

E-Tax Clearance

Tax Clearance Status for all suppliers and service providers who receive payments in excess of €10,000 within a twelve-month period must be confirmed prior to release of payment. Contractors must satisfy themselves, they have a valid Tax Clearance Certificate (TCC). Full details on how to apply for e-Tax Clearance are available directly from the Irish Revenue website on www.revenue.ie.

FAQs in relation to e-Tax Clearance can be found at: <http://www.revenue.ie/en/online/etax-clearance-faqs.html#section18>

The Tax Clearance Status of all relevant recipients will be checked on a monthly basis through online data upload. It is important to note that until Tax Clearance Status has been confirmed payments will be held.

Dental Inspectorate

The Health Service Executive PCRS is obliged to ensure the accuracy and reasonableness of claims submitted from contractors. Areas of responsibility include the:

- Preventing, detecting and deterring of invalid, inappropriate or fraudulent claiming
- Identification and management of risk
- Ensuring of contractor compliance with the claiming terms of their contract
- Identification and monitoring of contractor claiming patterns

The Dental Inspectorate, established in 2012, has a number of functions including Pre Contract Inspections; providing assurance on contract compliance and instigating probity reviews of the small number of individual contractors that may be non-compliant. In those cases some or all of the following investigative methodologies are applied:

- Audit of claims made by individual contractors
- Statistical Analysis
- Audit of patient records
- Patient examination/interview.
- Reviews of Patient Questionnaire
- Reviews of complaints from whistle blowers/patients

Following investigation cases may be referred to the HSE Probity Governance Group for determination who may in turn refer to

- The Director General under the disciplinary process
- The HSE Solicitor in respect of civil proceedings
- The Irish Dental Council
- The Garda Síochána

The ultimate sanctions applicable are the suspension or termination of contract.

Circular No. 008/10

26th April 2010

Dear Dentist,

The Budget 2010 decision limited expenditure under the Dental Treatment Services Scheme (DTSS) to €63m. To protect access to emergency dental care for medical card holders and to safeguard services for Children and Special Needs Groups, the HSE will prioritise the range of treatments available under the DTSS.

Using 2009 uptake levels, the HSE will provide emergency dental care to eligible patients with a focus on relief of pain and sepsis. Additional care will be considered in exceptional or high risk cases. Where an eligible person seeks emergency dental treatment, the contracting dentist must satisfy her/himself as to the clinical emergency and provide the necessary urgent treatment in accordance with the following schedule:-

1. Dentists will be reimbursed for one (1) Oral Examination (Item A1) in respect of an eligible person in any 12 month period. This examination is to include any necessary radiographs i.e. Extra-Oral Radiographs (Item B4) are suspended.
2. Prophylaxis treatment (Item A2) is suspended until further notice.
3. The HSE will reimburse up to and including two (2) restorations (from Items A3A or A3C) per eligible person, as part of emergency treatment, where the contracting dentist is satisfied as to the clinical emergency. Additional restorations will only be allowed in approved emergency circumstances.
4. Exodontics (Item A4) will be reimbursed where the contracting dentist is satisfied as to the clinical emergency.
5. Claims for Surgical Extractions (Item A5), will be reimbursed in emergency circumstances where the contracting dentist is satisfied as to the clinical emergency. This reimbursement will be restricted to a maximum of 2 time units. Claims for this treatment item will continue to be monitored over the coming months to ascertain if any additional control measures are required.
6. Miscellaneous claims (Item A6) will be restricted to control of haemorrhage and prescriptions.

7. The HSE will reimburse First Stage Endodontic (Item A7), one anterior tooth per eligible person, without prior approval, where a patient presents with an abscess or irreversible severe pulpitis on an anterior tooth (canine to canine – maxillary and mandibular). Any case requiring additional treatment will be subject to prior approval and clear treatment plans and prognosis for the remaining maxillary and mandibular teeth must be submitted. The HSE will expedite approval of such treatment plans including examination of radiographs or clinical assessments as appropriate within two weeks.
8. Denture Repairs (Item A8) will be reimbursed in emergency circumstances where the contracting dentist is satisfied as to the clinical emergency.
9. Endodontic Treatment (Item B1) will be reimbursed in approved emergency circumstances as set out in point 7 above.
10. Protracted Periodontal Treatment (Item B3) approvals are suspended until further notice. However, in clearly defined cases where periodontal care is warranted, e.g. diabetes, pregnancy, immuno-compromising conditions, and those requiring relevant surgical procedures such as cardiac surgery and joint replacements, approval may be given at the discretion of the local Principal Dental Surgeon taking budgetary exigencies into account.
11. Prosthetics (Item B5) will only be allowed in approved emergency circumstances.

The HSE will continue to monitor all treatment items to ascertain if any additional processes or control measures are required.

Thank you for your cooperation in relation to these matters.

Yours faithfully,

Patrick Burke

Circular No. 023/10

14 October 2010

Dear Dentist,

The new arrangements for the Dental Treatment Services Scheme (DTSS) outlined in circular 008/10 came into effect on 28 April 2010. The implementation of these arrangements is necessary to deliver a dental service within the budget available.

I intend to write to you regularly in light of the changes made to the DTSS in order to continue to update you on developments and also to ensure that you have an opportunity to suggest ways in which those changes can be implemented.

It is important to reiterate that the objective of the decision taken by the HSE, and communicated by way of Circular 008/10, is to best protect the interests of the public within the available budget. As you know, in Budget 2010 the Government decided that expenditure under the DTSS be maintained at the level that applied in 2008 i.e. €63m.

That decision arose from the Government's wish to reduce public expenditure. It is only one of a number of reductions in funding made across the board. I appreciate that the dental community would prefer it had funding levels remained at 2009 levels but must stress that the HSE is acting on foot of an express Government decision.

The HSE's duty, first and foremost, is to use the resources available to it in the most beneficial, effective and efficient manner to promote and protect public health and welfare. On that basis, we took the decision to prioritise emergency dental care for medical card holders within the available budget.

The new measures, introduced in April 2010, prioritise the range of treatments available.

As you know, some treatments which had previously been available under the Scheme (for example, dental cleaning and polishing) have been suspended. Other treatments (such as extractions and fillings) continue to be provided in the case of clinical emergencies. These measures have been introduced to protect access to emergency dental care for medical card holders and to safeguard services for exceptional/high-risk cases.

It is important, despite financial restrictions, that Principal Dental Surgeons apply their clinical judgement to ensure that care continues to be provided. PCRS will process any eligible claim where Principal Dental Surgeons have satisfied themselves that it falls within the scope of Circular 008/2010.

- In exceptional/high-risk cases, the Principal Dental Surgeon will clearly indicate in the 'For Official Use Only' box the number of approved Above the Line and/or Below the Line treatments and return the form to the contractor who will commence treatment.
- In emergency cases where Below the Line treatment is approved, the Principal Dental Surgeon will clearly indicate in the 'For Official Use Only' box the number of approved Below the Line treatments and return the form to the contractor who will commence treatment.

For clarification, a number of treatment items continue to be available *without* prior approval when an adult medical card-holder presents in an emergency situation, as set out in Circular 008/2010. Other treatments, again as set out in the Circular, require prior approval which should be obtained from the local HSE Principal Dental Surgeon.

Where prior approval is required for clinical treatment, the HSE Principal Dental Surgeons will apply their professional judgment to determine, in the circumstances, whether or not to approve the treatment. If the PDS is satisfied that it is an emergency, then approval should be given.

As referred to in Circular 008/2010, there are a number of medical card holders to be treated as exceptional/high-risk cases. These include Hepatitis C patients (these patients can be identified by an "R" designation on their Medical Card) and patients with Special Needs. Such patients must be prioritised for care and are eligible for all of the services available prior to April 2010 on the approval of a Principal Dental Surgeon.

The Principal Dental Surgeon should always be satisfied that they have adequate information to support their clinical decision.

Concerns have been expressed as to the effect the changes will have on certain exceptional/high-risk categories, such as oral cancer patients. However, the new arrangements allow for services to be delivered to exceptional/high-risk cases such as these. The oral cancer issue, for example, is essentially an oral health examination issue and an annual examination is still available for medical card holders under the new arrangements. Oral cancer patients can also be referred for assessment to our Public Dental Service at any time.

In July 2010, the HSE appointed a National Oral Health Lead, Dr Dympna Kavanagh and established a National Steering Group for Dental Primary Care which Dr Kavanagh chairs. This group is responsible for setting standards and policy for adult medical card holders. The initial focus of the Group is on services for older persons.

This National Steering Group, in association with four Regional Operational Groups, will identify the categories of adult medical card holders to be prioritised for HSE funded dental care. This determination will be based on medical and social exclusion profile rather than only being dependent on dental issues. Guidance in relation to clinical decisions is within the purview of the National Steering Group. On this, I attach a copy letter sent by Dr. Kavanagh to all Principal Dental Surgeons today.

The HSE will continue to monitor all treatment items to ensure compliance with our targets and to identify whether additional control measures are required. From that perspective I will communicate with contractors on a regular basis, by way of providing feedback in relation to the operation of the scheme and in addressing the control procedures as issues arise or as contractors require.

For example, to assist contractors, we have developed specific tools for you to verify a client's eligibility prior to providing dental services. This is a useful step to be taken prior to submitting a complete claim for reimbursement. This online facility is available at www.pcrs.ie under the heading "Dental Eligibility Confirmation".

- This service will confirm if a client has a medical card and if that client is eligible for various treatments.
 - To use the tool, simply select the treatment, tooth (required for tooth specific treatments only), enter the patient's PPS number and then choose the "Check Dental" option.
- In addition, you can verify the same information in respect of A1, A3A, A3C and A7 treatments by SMS text using your mobile phone.
 - To use this facility, text the treatment code, tooth (required for tooth specific treatments only) and PPS number to 087 909 7867, e.g. "A1 1234567P or A3A 22 1234567P" (please note that there is a space between the treatment type, the tooth number and the PPS number).

We appreciate the challenges that face private contractors and our dental teams led by Principal Dental Surgeons and thank you for your assistance.

We are facing unprecedented challenges as a health service to deliver quality services to patients from fewer resources. The Government is unequivocal that the change to the budget will not be reversed. However, it is important to maintain a perspective and take cognisance of the fact that we are working within resources which delivered a good service in 2008. The challenge is to continue to deliver this level of service.

The HSE will be carrying out a review of the changes to the DTSS later this year and in this context we plan to look at the effect, if any, of the changes for any particular group. We are open to considering changes to the DTSS provided we can stay within the budget allocation.

Yours sincerely

Patrick Burke
Primary Care Reimbursement Service

Appendix III DTSS Scale of Fees

Dental Treatment Services Scheme Schedule of Fees - 1st May 2022

Treatment Description	Date Effective	Fee	Date Effective	Fee
ORAL EXAM (A1)	01/05/2009	€33.00	01/05/2022	€40.00
PROPHYLAXIS (A2)	01/05/2009	€31.00	01/05/2022	€42.00
AMALGAM RESTORATION (A3A)	01/05/2009	€50.06	01/05/2022	€65.00
COMPOSITE RESTORATION (A3C)	01/05/2009	€51.88	01/05/2022	€80.00

HEALTH PROFESSIONALS (REDUCTION OF PAYMENTS TO
REGISTERED DENTISTS) REGULATIONS 2009

(Prn. A9/0625)

S.I. No. 171 of 2009

HEALTH PROFESSIONALS (REDUCTION OF PAYMENTS TO REGISTERED DENTISTS) REGULATIONS 2009

I, MARY HARNEY, Minister for Health and Children, in exercise of the powers conferred on me by section 9 of the Financial Emergency Measures in the Public Interest Act 2009 (No. 5 of 2009), having complied with subsections (4) and (7) of that section, with the consent of the Minister for Finance, hereby make the following regulations:

1. These Regulations may be cited as the Health Professionals (Reduction of Payments to Registered Dentists) Regulations 2009.

2. These Regulations shall apply to payments in respect of services rendered by a registered dentist to or on behalf of the Health Service Executive under the Dental Treatment Services Scheme.

3. The payments that shall be made to a registered dentist in respect of the services referred to in Regulation 2 from the date of the making of these Regulations shall be as set out in the table below.

TABLE

TREATMENT TYPE	AMOUNT
Oral Examination (A1)	€33.00
Prophylaxis (A2)	€31.00
Amalgam Restoration (A3A)	€50.06
Composite Restoration (A3C)	€51.88
Exodontics (A4)	€39.50
Miscellaneous (A6) Haemorrhage	€22.65
Miscellaneous (A6) Dry Socket	€22.65
Miscellaneous (A6) Abscess	€22.65
Miscellaneous (A6) Dressing	€22.65
Miscellaneous (A6) Prescription	€22.65
1st Stage Endodontic Treatment (A7)	€57.30
Radiographs (1 film)	€24.70
Radiographs (2 or more films)	€37.40
Radiographs (panoramic)	€41.45
Surgical Extraction (A5)/15 Minute Time Unit	€35.00
Surgical Extraction (A5)/45 Minute Time Unit (Max)	€105.00

Notice of the making of this Statutory Instrument was published in "Iris Oifigiúil" of 8th May, 2009.

The Minister for Finance consents to the foregoing Regulations.

GIVEN under my Official Seal,
1 May 2009

BRIAN LENIHAN,
Minister for Finance.

GIVEN under my Official Seal,
1 May 2009

MARY HARNEY,
Minister for Health and Children.

EXPLANATORY NOTE

(This note is not part of the Instrument and does not purport to be a legal interpretation)

These Regulations provide for a reduction of payments to registered dentists in respect of services under the Dental Treatment Services Scheme.

Circular No. 007/11

8th April 2011

Dear Dentist,

I wish to advise that the Minister for Health, with the consent of the Minister for Finance, made Regulations on the 29th March 2011 to reduce payments to Dental Contractors in respect of the 2nd stage endodontic treatment services, apicectomy treatment services and protracted periodontal services rendered to or on behalf of the Health Service Executive under the Dental Treatment Services Scheme (DTSS).

In accordance with section 9 (3) of the FEMP1 Act 2009, the Regulations are effective from the 29th March 2011. Please note Regulation 5 sets the maximum rate applicable to protracted periodontal treatment services (B3). A copy of the Regulation is attached for your information.

I would draw your attention to the provisions of section 9 (8) of the Financial Emergency Measures in the Public Interest Act, 2009. Section 9 (8) allows a Dental Contractor who does not wish to continue to render services on behalf of the HSE on the basis of the new payment arrangements to withdraw his/her services if he/she so wish following 30 days written notice of his/her intention to do so. In any such event, Section 9 (9) of the Act allows the HSE to engage the services of another professional to ensure that services continue to be available.

I trust the foregoing and attached clarify matters in relation to the revised fee schedules for you.

Yours faithfully,

Patrick Burke
Primary Care Reimbursement Service

HEALTH PROFESSIONALS (REDUCTION OF PAYMENTS TO
REGISTERED DENTISTS) REGULATIONS 2011

(Prn. A11/0478)

HEALTH PROFESSIONALS (REDUCTION OF PAYMENTS TO REGISTERED DENTISTS) REGULATIONS 2011

I, JAMES REILLY, Minister for Health and Children, in exercise of the powers conferred on me by section 9 of the Financial Emergency Measures in the Public Interest Act 2009 (No. 5 of 2009), having complied with subsections (4) and (7) of that section, with the consent of the Minister for Finance, hereby make the following Regulations:

1. These Regulations may be cited as the Health Professionals (Reduction of Payments to Registered Dentists) Regulations 2011.

2. These Regulations shall apply to payments in respect of 2nd stage endodontic treatment services, apicectomy treatment services and protracted periodontal treatment services rendered by a registered dentist to or on behalf of the Health Service Executive under the Dental Treatment Services Scheme.

3. The payments that shall be made to a registered dentist in respect of 2nd stage endodontic treatment services and apicectomy treatment services shall, from the date of the making of these Regulations, be in the amounts specified in Schedule 1.

4. Subject to Regulations 5 and 6, the payment that shall be made to a registered dentist in respect of protracted periodontal treatment services shall, from the date of the making of these Regulations, be in the amount specified in Schedule 2.

5. Regulation 4 shall not apply to a registered dentist who provides protracted periodontal treatment services in the local government areas of the city of Dublin and the counties of Dun Laoghaire-Rathdown, Fingal, Kildare, South Dublin and Wicklow.

6. A registered dentist shall not be paid for more than 4 treatment visits in relation to a patient for services referred to in Regulation 4 rendered to the patient in any 12 month period.

Notice of the making of this Statutory Instrument was published in "Iris Oifigiúil" of 1st April, 2011.

SCHEDULE 1

2nd Stage Endodontic Treatment Services and Apicectomy Treatment Services

Reference Number (1)	Treatment Type (2)	Amount (3)
1.	2nd stage Endodontic Treatment Services (B1)	€137.66
2.	Apicectomy Treatment Services (B2)	€168.70

SCHEDULE 2

Protracted Periodontal Treatment Services — amount payable to a registered dentist per treatment visit

Reference Number (1)	Treatment Type (2)	Amount (3)
1.	Protracted Periodontal Treatment Services (B3)	€26.36

The Minister for Finance consents to the foregoing Regulations.

GIVEN under my Official Seal,
25 March 2011.

MICHAEL NOONAN,
Minister for Finance.

GIVEN under my Official Seal,
28 March 2011.

JAMES REILLY,
Minister for Health and Children.

15th May 2018

Circular 015/18

Dear Dentist,

The DTSS provides access to certain dental treatments to eligible persons aged 16 and over, living in the community. Reimbursement for services provided by DTSS contractors is administered by the Primary Care Reimbursement Service (PCRS).

The first phase of online services enabling DTSS contractors to submit claims using a dedicated online facility is progressing well. Over 27% of DTSS dentists are actively using the facility and availing of earlier payments.

The second phase delivers the ability for dentists to apply for prior approval online enabling patients to receive treatment in a more timely fashion. Similar to the first phase of the project, the PCRS has engaged with a number of your colleagues and Principal Dental Surgeons to pilot this phase of the project. Participants found that using the system requires little effort with

- 80% of participants found the online approval system easy or very easy to use
- 80% of participants would recommend the online approval system to their peers

The HSE wishes to commence deployment of the second phase of the project to those dentists who are currently using the online facility. This deployment will occur on a phased basis commencing with CHO Areas 3, 6 and 9 on 15th May 2018 cumulating with full deployment available to all participating dentists on 25th June 2018.

With the introduction of Online Approvals the DTSS dentist will be linked to the PDS in the area where their practice is located. Going forward all approval requests regardless of where the patient originates from should be sent to the PDS where you are located.

The schedule of deployment is detailed as follows:

Stage	CHO No.	LHO Description	Principal Dental Surgeon	Deployment Date
First	3	North Tipperary/East Limerick	Maurice Delaney	16 th May 2018
	3	Clare	Maurice Delaney	15 th May 2018
	3	Limerick	Maurice Delaney	15 th May 2018
	5	Wicklow	Anne Marie Brady	15 th May 2018

To support dentists an updated user manual is available on your Dental Application suite which details the process for submitting a request for approval. Alternatively our support team is available to assist you on 01-8915756.

If you haven't already registered and are Interested in moving to Online?

If you are interested in registering to process your claims online please complete the attached Security Certificate Requisition Form which can be emailed to cert.info@hse.ie. To participate Practices will need to be

- a) Active DTSS contractors providing a full range of DTSS services and submitting claims for payment.
- b) DTSS contractors who have access to broadband.
- c) DTSS contractors who meet HSE requirements and have received authorisation from the PCRS to access the DTSS online facility following the completion of a security certificate requisition form (Attachment 1).
- d) DTSS contractors who have the ability to upload forms.

The PCRS look forward to working with DTSS contractors to continue to transform DTSS reimbursement.

Yours sincerely,

Anne Marie Hoey
Primary Care Reimbursement & Eligibility

Information and Data Protection Notice

1. A security certificate is required to authenticate your electronic communications with PCRS, e.g. electronic claim submissions.
2. Security certificates can issue on the basis of provisional contract numbers. Full contract setup is required for reimbursement.
3. The latest version of this form is always available on online services section at www.pcrs.ie. Please check the version number at the top right of this document. Requisitions must be made on the latest version of the form.
4. Please use BLOCK CAPITALS and complete all sections. **Mobile Number is mandatory.** Forms which cannot be processed will be returned to sender by post.
5. **Data Protection Notice:** Personal data collected by the HSE is used for the purpose of providing a health service. It is required, stored, processed and disclosed to other bodies in accordance with the laws relating to proper treatment of personal data.

Part 1: Requisition Type

Additional: In cases where a first or second etc. computer is to be configured to communicate with PCRS. **Replacement:** In cases where the PCC had a certificate for which a replacement is now required. **Standard:** Secure codes will be dispatched by post within 5 working days from receipt. Requisitions must be received at PCRS by the **15th of each month.** **Emergency:** Secure codes will be issued by email directly to a PCC and only if the requisition can be verified. If an email address is not available, an emergency requisition will not be processed.

Please Insert "Additional" or "Replacement"

Please Insert "Standard" or "Emergency"

If emergency, state the reason. This will be reviewed and the requisition processed as an **emergency only in certain cases.** Late applications are not treated as emergencies.

Circular No. 13/22

29th April 2022

Dear Dentist,

The DTSS provides access to certain dental treatments to eligible persons aged 16 and over. Reimbursement for services provided by DTSS contractors is administered by the Primary Care Reimbursement Service (PCRS).

I am taking this opportunity to write to you as a Dental Contractor who currently holds a Dental Treatment Services Scheme Contract with the Health Service Executive, to inform you of changes and fee adjustments across a number of existing service items as outlined below, effective for treatments with a commencement date on or after 1st May 2022.

- A1 Oral Examination:** Dentists will be reimbursed for one (1) Oral Examination (Item A1) in respect of an eligible person per calendar year. This examination includes necessary intra- and extra-oral radiographs and other supporting diagnostics; risk factor/health determinants (covering tobacco, alcohol, and diet) assessment, advice and action including referrals and intervention; recording of caries and periodontal disease; dental enamel defects; trauma; hard and soft tissues including for oral cancer. The A1 treatment fee of €40.00 is effective from 1st May 2022.
- A2 Prophylaxis:** Prophylaxis treatment (Item A2) will be reintroduced for all eligible patients, without the need for prior approval once per calendar year. The A2 Treatment fee of €42.00 is effective from 1st May 2022. In addition, high risk patients can avail of a second A2 treatment after 6 months, but will require prior approval. The existing arrangement for a second A2 treatment after 6 months without prior approval for Long Term Illness registered diabetic patients remains in place.
- A3A/A3C Restorations:** The HSE now facilitates the introduction of composite restorations in the treatment of posterior teeth and will continue to reimburse up to and including two (2) restorations per calendar year (from Items A3A or A3C) per eligible person, where the contracting dentist is satisfied as to the clinical necessity. Additional restorations will only be allowed in approved circumstances. A3A treatment fee of €65.00 and A3C treatment fee of €80.00 are effective from 1st May 2022.
- A4 Exodontics:** Exodontics (Item A4) will be reimbursed where the contracting dentist is satisfied as to the clinical necessity. A4 treatment fee of €60.00 is effective from 1st May 2022.

5. **AG Miscellaneous:** Dressings (D) have been reintroduced under Miscellaneous claims (Item A6). A6 treatment fee for Dressings and Haemorrhage (H) is €22.65 and is effective from 1st May 2022, while the A6 fee for Prescriptions (P) is €11.32 effective from 1st May 2022.
6. **AS Denture Repairs:** Denture Repairs (Item A8) will be reimbursed where the contracting dentist is satisfied as to the clinical necessity. Fee of €67.00 for first repair, €21.48 for each subsequent item and €109.96 max is effective from 1st May 2022.
7. **BI Second Stage Endodontic Treatment:** Endodontic Treatment (Item BI) will be reimbursed in approved circumstances. BI treatment fee of €206.49 effective from 1st May 2022.
8. **BS Dentures:** Prosthetics (Item BS) will only be allowed in approved circumstances and fees are set out in the table below.

Item	Full Upper & Lower Denture	Full Upper Denture Only	Full Lower Denture Only	Full Upper & Lower Denture Reline	Full Upper Reline Only	Full Lower Reline Only	Part Upper Denture	Part Lower Denture
Fee	€670.24	€456.71	€456.71	€304.33	€182.83	€182.83	€334.98	€334.98

The D-form and DTSS Handbook will be updated to reflect the above treatment changes. Existing D-forms will still be accepted for claiming purposes.

A dedicated online facility is now available for all Dental Contractors to submit their claims online for expeditious processing and reimbursement. Benefits of the Online Facility for DTSS Contractors include:

Real-time confirmation of acceptance of claims and inputting from dental practice directly on to the National Claims & Payments System.

Ability to send an approval request to your Principal Dental Surgeon online.

The online facility eliminates rejections and reduces the need to query payments.

- Extension of claim submission time-period, enabling participating contractors to submit their claims up to the end of the month.
- Access to comprehensive reports detailing claims processed for payment.

HSE Dental Antimicrobial Prescribing Guidelines are available at:

<https://www.hse.ie/eng/services/1/ist/2/gp/antibiotic-prescribing/conditions-and-treatments/dental/denta1-guidelines>

Should you have any queries in relation to any of the above arrangements, please contact the Primary Care Reimbursement Service - Dental Unit on 01-8915752 or 01-8915756, or email your query to dtss.queries@hse.ie.

Yours sincerely

Shaun Flanagan
Assistant National Director
Primary Care Reimbursement Service
