(Applied Professional and Clinical Development NQF Level 9)**

Dear Colleagues,

The provisions of the public service stability agreement (Haddington Road Agreement) provides for the introduction of a graduate staff nurse/midwifery programme. The principle characteristics of the program are as follows:

- A two year programme
- Rate of pay to be 85% of the first point of the January 2011 staff nurse/midwife scale. Progressing to 90% of same in year two of participation
- Educational component to be at certificate level
- Any appointments to the programme will not affect the ECF in the health service
- Any subsequent appointment following completion of the graduate programme will be to the third point of the staff nurse scale
- Hours of work will be the same as standard working hours in place at the time for nurses and midwives
- This programme will be reviewed as part of the overall review of the Haddington Road Agreement.

The over riding purpose of this scheme is to reduce the current unsustainable spend by the health services on agency and overtime within nursing and midwifery.
