Quality and Fairness
A Health System for You

Dear Chief Executive

I refer to the implementation of the Report of the Public Service Benchmarking Body and consequent arrangements for dosimetrists.

The total pay increase for basic grade dosimetrists under these arrangements is 5.0% and the total pay increase for senior grade dosimetrists is 7.8%. As you know, the first 25% of these total pay increases falls to be paid with effect from 1 December, 2001.

Yours sincerely

W Beausang
