

## Support Contact Persons - Dignity at Work Policy

The role of the Support Contact Person is to provide *information and support* in a confidential, non-judgemental and off the record discussion/s to any employee who feels that s/he is being subjected to workplace bullying or harassment. This is also available for any employee against whom a complaint of workplace bullying or harassment has been made.

Please see list below for the names and contact numbers of the Support Contact People within the former Dublin North East Area. You can contact any of the Support Contacts listed below, regardless of location.

Copies of the HSE's Dignity at Work Policy are available from all local HR/Administration Offices or alternatively on the HSE Website;
