Your Opinion Counts
Health Sector National Staff Survey 2018

The Health Sector Staff Survey “Your Opinion Counts” 2018 is going live from the **1st to the 30th of September 2018** and will be available to complete at **www.youopinioncounts.ie**. This is an opportunity for each staff member to give their input and have their voice heard in order to help build a better health service for all.

WHY WOULD I GET INVOLVED?

This important survey is being conducted to assess current staff opinions in order to identify opportunities for improvement and builds on the work of the national staff surveys carried out in 2014 and 2016.

It is widely recognised that staff who are fully engaged at work are better able to give their best to patients and service users so positive staff engagement is in all our interests.

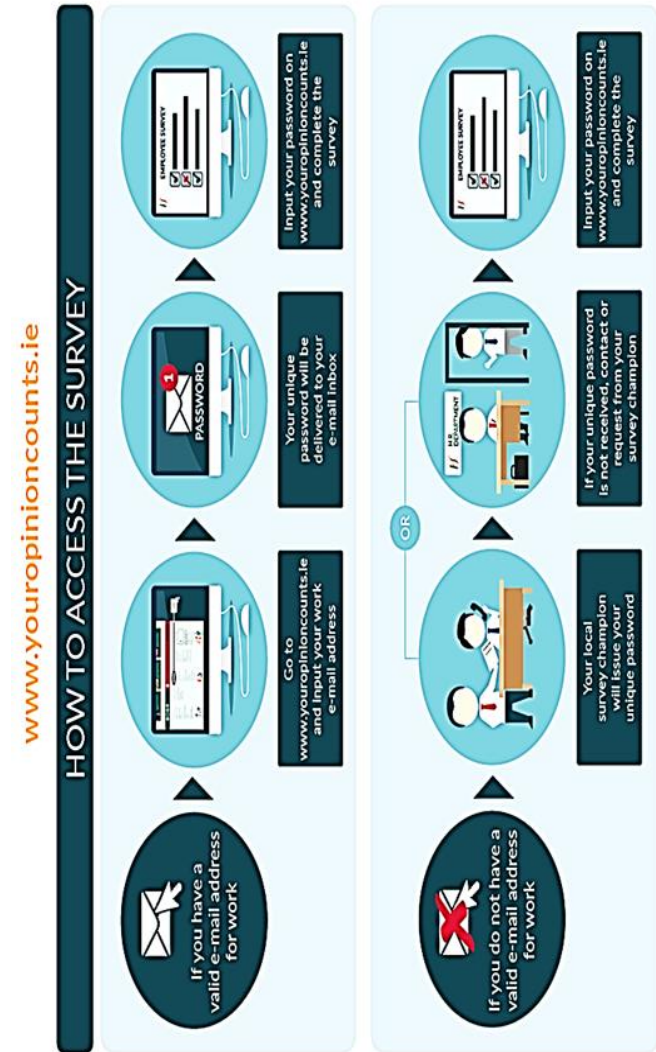

WHO IS CARRYING OUT THE SURVEY?

The Survey is being carried out by Ipsos MRBI, an independent research company, and will take approximately 15 minutes to complete. Your participation in the survey together with your responses, will be totally confidential.

SOME THINGS WE HAVE DONE SINCE THE LAST SURVEY
